

Lesson Plan – Snowy Owl

Materials

- blue construction paper
- paint - white
- bubble wrap
- Owl body – 1 medium oval and one small circle
- Strips of textured white wall paper
- Brown wallpaper
- glue
- Mini muffin cups
- Very small yellow circles
- Black marker

Directions

1. Paint a snowy background on light blue paper. Use small pieces of plastic bubble-wrap and white paint, the children can print patterns of small white dots across the paper surface.
2. While the paint dries, the children can make their owls. Glue a circle of brown paper onto an oval shape of the same colour, to create the owl's head and body.
3. Give each child several strips of the textured wallpaper, and show them how to tear them into small pieces.
4. Create eyes by gluing circles of yellow paper inside two small muffin cases, and drawing two black circles in the centre of each. Add a black triangle for the beak.
5. Roughly tear a strip of brown wallpaper, creating a tree branch for their snowy owl to perch upon.
