

## Lesson Plan – Squeezing and Squishing Wax Paper Art

This is a process based art activity. The final product will likely be thrown out. Be sure to give students plenty of time to explore and investigate their paint creation.

### Materials

- Wax paper
- Different coloured paint in squeeze bottles

### Directions

1. Give student a piece of wax paper
2. Allow student to squeeze paint on to paper
3. Student puts a second piece of wax paper on top of painted paper
4. Encourage/facilitate student to explore paint movement between sheets of wax paper. They can push paint around, smush it with their hands, pull paper up, mix colours, etc.

### Extensions

- Give student a piece of plain paper to make prints from waxed paper
