

LESSON PLAN TEMPLATE

If you are using Google Slides, click the link below to make your own editable copy.

[Lesson Plan Template Google Slides](#)

Using the Lesson Plan Template

This template is editable meaning you can insert text boxes in the blank squares to type in the details of your lesson plans. The basic framework is also editable. It is recommended to save the original template separately in the event you want to change the overall layout later.

For best use following these steps each time:

1. Open the template and immediately Save As a separate file name. Example: Lesson Plan Week of August 21-25. You will do this each week to keep from overwriting your plans. At the end of the year, you will have a complete scope of lesson plans to use and adapt for the following year.
2. Complete your plans, save, and print two copies if you are required to submit a hard copy to your administrator.

Teacher:		Class:		Week:	
		Monday	Tuesday	Wednesday	
LESSON ACTIVITIES	Lesson Objective Frame: "We will..."				
	Anticipatory Set <input type="checkbox"/> Engage students <input type="checkbox"/> Connect prior learning <input type="checkbox"/> Explain the objective <input type="checkbox"/> Tell what students will do <input type="checkbox"/> Connect to future learning				
	Direct Instruction <input type="checkbox"/> Teach content <input type="checkbox"/> Introduce new skills <input type="checkbox"/> Model new skills <input type="checkbox"/> Check for understanding				
	Guided Practice <input type="checkbox"/> Monitor <input type="checkbox"/> Facilitate				
	Independent Practice <input type="checkbox"/> Work individually <input type="checkbox"/> Partners or Stations				
Check for Understanding	Close Frame: "I will..."
