CLINICAL PREVENTIVE DENTAL SERVICES:

Let's Smile, Inc.'s services align with the Minnesota  *standards.*

Let's Smile, Inc. increases access to professional clinical preventive dental services to children & adolescents, who are covered by Minnesota Health Care Plans (MHCP) or uninsured. Children and adolescents participating in our program who are enrolled in a state assistance program will have their services billed to insurance. If a child is uninsured, Let's Smile, Inc. utilizes grant/donation funding to cover the cost of their services. Let's Smile, Inc. does not bill families for preventative services.

- Provide Basic Screening Surveys (BSS) to assess for untreated decay, check for oral cancer, and inspect for the proper development of children & adolescent's teeth
- Prophylaxis (dental cleaning) to remove plaque, calculus, stains, and bacteria
- Administer fluoride varnish treatments to strengthen the enamel of teeth
- Sealants
- Provide oral hygiene instructions 
- Provide take home bags with toothbrush, floss, and toothpaste per patient. Take home fluoride rinse will be provided if indicated by a high cavity rate.

Please let Ann Lange, your substitute nurse, know if you would like to sign up!

Consent forms must be completed, signed, and turned in to Ann before dental clinic day to ensure your child may receive dental services.

Let's Smile, Inc. will submit insurance claims for each clinical visit for children & adolescents with state dental insurance such as MA, Minnesota Care, UCare, South Country, Medicaid, and Blue Plus.

Note: Let's Smile, Inc. will not see children with private dental insurance
