CHOICE PROGRAM:

Logan Township School District is opening five student seats in 7th grade.

The district believes that this will be beneficial to all who attend due to its unique learning environment. Logan Township School District operates a middle school of less than 300 students with many opportunities while still maintaining small class size. This small school learning environment allows the middle school child to find “his/her niche” which is not often easily done in a larger learning environment during the adolescent years. Teachers know all students, school counselors work as a team with the middle school principal to provide academic and educational support, an I & RS (Intervention and Referral Service) Team meets regularly to review data and suggest interventions and the district administrators work as a whole cohesive unit to maximize the many resources this proud district has available for its students. The Middle School programs which will be provided to choice students include but are not limited to:

- A one-to-one laptop initiative for each student
- An interactive white board in each middle school classroom
- STEM education (Science, Technology, Engineering and Mathematics)
- A choice of two World Languages, Italian or Spanish
- Pre-Algebra and Algebra I to students who meet criteria
- Pre-Engineering two year class to students who meet criteria
- Performing Arts including Band, Choir and Drama, including the ability to “try out” to participate in the middle school annual musical
- Gifted and Talented program who meet criteria
- Positive Behavior Support Initiative
- Afterschool clubs
