Dear Parents,

Each year we administer the Measure of Academic Progress Assessment, or MAP, test to all of our students. This is a computerized assessment that gives our teachers immediate results and enables them to plan and implement the best instructional strategies and content for each individual student. It is important each student try his/her very best on these tests so we can receive accurate data. This data drives our instruction and helps your student grow as a learner.

Below you will find the schedule we will follow for MAP testing. Please make sure all students get a good night's sleep, eat breakfast, and are at school each day for testing. We would greatly appreciate it if you could plan all doctors' appointments around the testing schedule. Students perform much better when they are able to take the test with their peers. All missed testing dates will have to be made up by May 5.
