The mission of Maple Elementary School is to educate all students to become responsible citizens equipped with the skills necessary for success in an ever-changing, highly diverse, technological world through a committed partnership with students, staff, parents and community.

The third grade students would like to thank all of the Maple students, parents, and staff who supported our Brownie Business. As part of our unit on economics the students baked and sold dozens of brownies. By starting and running our own business we learned a lot about entrepreneurship, including pricing, advertising, production, and selling. Everyone had a job, and everyone's job was important to the overall success of the venture. The profits total \$240.00. We will send a check for to the Lake County Humane Society
