

MVHS March 2020 Student of the Month

Freshman

| | | | |
|-----------------|----------|----------------|---|
| Brady Barkhurst | Freshman | Shauna Johnson | Brady is super helpful to have in class. Not only is he focused on his own work, he is always happy to help other students in class. I can rely on Brady to be a positive influence on his classmates and help keep them on track in class. |
| Josie Oliver | Freshman | Burden | Josie is always willing to help a particular student in our class who has special needs. She goes above and beyond the duty of "table partner" and always helps with a happy heart. Her inclusion of everyone in class is why she should be student of the month. |

Sophomore

| | | | |
|-------------------------|-----------|---------------|--|
| Draven Schmidt | Sophomore | Myers | Draven has been a great student all year, often asking questions I have a hard time answering. He's doing this in physical science, which is a tough group of kids. He's curious, he pushes to find the right answer, he does quality work, he always pushes to get deeper into the content. Even though it doesn't always come easy, Draven pushes himself consistently with the content. |
| Morgaine Peskin-Stalker | Sophomore | Joel Clements | Morgaine has a dynamic creative energy that she brings to everything she works on. She's thoughtful, reflective, and dedicated. It's always enjoyable to work with Morgaine, and to know that she will have sincere interest in the work of those around her, as well as her own. |

Junior

| | | | |
|--------------|--------|----------------|---|
| Luke Roberts | Junior | Mrs. Hutchison | Luke Roberts is an outstanding student on our Pre-Calculus class. He comes prepared to class each day with his assignments and projects complete. He gives thoughtful answers on homework and in group discussions. He pays excellent attention in class and adds to each group discussion. He is willing to work with anyone in our class. Luke gives each task his all and maintains a positive attitude as well. |
| Julia Towle | Junior | Mrs. Ross | Julia consistently strives to do well in my class and is always engaged. She produces exceptional work and is respectful and polite toward everyone around her. I appreciate everything she contributes to our Spanish 4 class. ¡Gracias, Julia! |

Senior

| | | | |
|---------------|--------|---------------|---|
| Chaz Weaver | Senior | Todd Andresen | Chaz is the silent leader of the Robotics team. He is tireless in his efforts both towards the completion of the robot and in helping others learn the skills he has gained. He is an amazing mentor for other students who want to be machinists and is totally committed to Mountain View High School. |
| Kaylee Ingram | Senior | Larwin | Kaylee is a quietly outstanding part of MVHS. Kaylee demonstrates Community and Service in a variety of ways. She is part of the Red Cross Club, Student Leadership, and actively tutors/mentors students in FR 1 as a T.A. She always brings a willing attitude and challenges herself to do her best work. We are so lucky to have Kaylee as part of our MVHS family. |
