

Today's Artist: Margaret Keane

Margaret Keane is an artist best known for her paintings of women with large eyes. During the 60's her paintings were reproduced on posters, greeting cards and other commercial forms more than any other living artist at that time.

In 2015, Tim Burton (who is a collector of her work) created a movie about her life called “Big Eyes”.

In the 60's Margaret's husband Walter Keane, took credit for her work and the truth did not come out until the 70's during a trial.
