

Math Module 7, Lessons 6-9 Quiz

43 points

Name _____ Date _____

1. Count the coins in each set and write the value. (3 points each)

	_____
	_____
	_____
	_____
	_____

2. Solve each word problem and show your work. (4 points each)

a. Michelle has 63 cents. She bought candy and used 2 dimes, 2 nickels, and 7 pennies. How much money does Michelle now have?

b. Erica has 3 quarters, 1 dime, and 4 pennies. How much money does she have total?

c. Sheldon has 2 ten dollar bills, 3 five dollar bills, and 18 one dollar bills. How much money does he have?

d. Mia has 5 ten dollar bills, 7 five dollar bills, and 9 one dollar bills. She gives Jacob 2 ten dollar bills, 3 five dollar bills, and 4 one dollar bills. How much money does Mia have left?

3. Write another way to make the same total value. (6 points each)

a. Roberto has 36cents to buy a lead pencil. Write two coin combinations he could have paid with that would equal 36 cents.

--	--

b. Marie has 4 quarters. Write two other coin combinations she could have that would equal the same amount.

--	--
