

Math Reflection

Instructions: Think about the year that we have had. Reflect on your learning and answer the questions below. The answers don't have to be LONGGGGG but try to make them more than a sentence! Try to write a short paragraph for each question! The box will expand as you write!

1. What is your favorite memory from Math class?

2. What is your favorite math topic that you learned this year?

3. What will you miss about 6th Grade?

4. Tell me about any special memories or people that really impacted you this year. It could be a teacher, parapro, another student, or anyone else in the school!
