Social Studies	 Work on science, social studies, and math at the same time by making the bread we made on our bread day at home! Make sure you have adult help with this. Write a letter to Laura Ingalls Wilder about your thoughts on pioneer life-likes and dislikes. You can illustrate. Compare your life to Laura's. You can illustrate. Imagine you were moving during pioneer times. What would you pack? How would you help your family prepare to move? How do you think traveling in a covered wagon would feel? Where would you move to and why? You can illustrate. Write about your favorite part(s) of Little House in the Big Woods. Why is it a favorite? You can illustrate. Make a timeline of events in your life Create a family tree Explore and compare different jobs in the community and why people have those jobs Create a map on how to get from one place to another (home to school, etc.) 	 <u>Tween Tribune</u> <u>Newsela -</u> click on Get Instant Access <u>Freedom Flix</u> - use AEA login <u>National Geographic Kids</u> <u>White House Tour</u> <u>Virtual Tours</u> <u>PebbleGo Next</u> Username from teacher <u>Virtual Manipulatives</u>
Math	 Draw arrays and write number sentences to match. Use "counters" and show your arrays instead of drawing them. Write a variety of story problems for all 4 operations (+, -, x, & ÷) You can illustrate. Ask someone at home to solve your problems. Use your measuring cups (fractions) and bake with a family member. Compare amounts using your measuring cups. Tell someone at home what time it is using an analog clock. Tell them what time it will be in one hour, a half an hour. Tell what time it was an hour ago, a half hour ago. 	 <u>Prodigy</u> <u>EdHelper Math</u> <u>Virtual Manipulatives</u>

	 Write a telling time story problem. You can illustrate. Ask someone at home to solve your story problem. Use a deck of cards to practice addition, subtraction, or multiplication facts. You can write your problems on paper. Teach someone how to play War (2, 3 or 4 digit, can be addition or subtraction), or play Salute. Write a money story problem. You can illustrate. Ask someone at home to solve your story problem. Count money at home to a family member. Using a take out menu from local restaurants, tell what you would buy for your family to eat for breakfast, lunch, or supper, and figure out how much it would cost. You can illustrate. 	
Science	 Make a list of Force and Motion tests to do at home. Make a st claim. Do some tests. Record your data. Make your final claim based on your data collection. What do you notice? What do you wonder? You can illustrate. Record data on caterpillars and butterflies as they return. What do you notice? What do you wonder? You can illustrate. Record data on any nature activity you can observe. What do you notice? What do you wonder? You can illustrate. Make a claim about weather. Then, collect daily weather data from your favorite TV meteorologist. What do you notice? What patterns do you see? What is your final claim? Compare your data to another state/location if possible. You can illustrate. Be your families' meteorologist and report your findings to them. Make a claim and then observe the plants and animals outside your windows. What do you notice? What do you wonder? How are they changing? What 	 Tween Tribune Mystery Doug Newsela - click on Get Instant Access Science Flix - AEA login Science Bob Discovery Kids PebbleGo Next Username from teacher Generation Genius - Username and password from teachers Nasa Kids Club Carolina Biological Resources Mystery Science Cincinnati Zoo Visit the Cincinnati Zoo Home Safari series on their YouTube channel. IDEAS for supporting your **6TH GRADE** child:

Subject	Without the Use of Technology	Technology Resources
English, Reading, and Writing	 Read books of your choice! Think about Bingo activities and complete an activity after reading a book Read the newspaper, magazine, captions of your favorite television show Write a story, poem or design a comic book or graphic novel Write an opinion letter, research paper, narrative paper about an event in your life, or a persuasive paper 	 Wonders Online - Student login Epic - See Seesaw Message NewsELA - Google Email login No Red Ink - Google Email login Click "Learn" (top left) Freedom Flix - AEA login TrueFlix - AEA login ReadWorks Scholastic Learn at Home Virtual School Activities

	 Work on cursive handwriting (signature) Vocabulary word of the day, track how many times can you/your family use the word correctly in a day Write letters to family, friends, senior living/nursing home, etc. and mail them Write in a journal (paper or Google Doc online on Google Classroom) Play games (Scrabble, Boggle, crosswords, hangman, mad libs) 	 <u>Type to Learn 4</u> - Student login and School code: 161043 <u>Games</u> - Great tech/no tech ideas
Social Studies	 If able, please post any of your work on Seesaw so Ms. Peters can see it! Watch CNN10 daily and write down some notes about your favorite story from the day. Go onto Newsela and read a news story of your choice each day. Build a new pyramid at home following some of the same requirements that we used in class, if able please send me a picture or video featuring your pyramid. Create cave paintings at home and spend some time with others in your home examining them with flashlights and having others determine the meaning. Login to TCI and go through any/all chapters or sections that are interesting to you and fill out some of the work/complete some of the projects of your choice! Have a debate at home with whoever you choose. Pick topics of choice and be sure to have research that supports your claims! Imagine that you were an ancient Egyptian, write a story about what your life would have been like. 	 <u>CNN10</u> <u>Tween Tribune</u> <u>Actively Learn</u> <u>Newsela -</u> Google Email login <u>Freedom Flix</u> - use AEA login <u>National Geographic Kids</u>
Math	 Flashcards Recipes Sewing Dice games-order of operations, multi-digit multiplication, Build something 	 <u>Delta Math</u> <u>Manuvering Middle School Math</u> <u>Khan Academy</u> <u>EdHelper Math</u> <u>I-ready</u> <u>Virtual Manipulatives</u>

Science	 If able, please post any of your work on Seesaw so Ms. Peters can see it! Take a walk around outside. Observe the things around you and think/write about how those things impact your daily life. Walk around outside and take notes on various different rocks. Do research to determine what type of rocks they are and learn about how the rock cycle works. Think about your five senses, write about the order of importance of these senses for you. Be sure to explain why you feel one is the most to least important. Research online labs to do that test your five senses. Try some of these out! In particular, you will find labs where you can test your reaction time with just a ruler! You can test your reaction time with sight, hearing, and touch. Look up or create optical illusions and think about how they affect your brain. Play some periodic table of element games online! Try to come up with some periodic element puns/jokes. Create your own thermos at home using materials that you have one hand! Remember you want your thermos to keep liquid hot/cold for as long as possible. IDEAS for supporting your **HIGH SCHOOL** child:

Subject	Without the Use of Technology	Technology Resources
English: Reading and Writing	 Read books of your choice! Write a story Vocabulary Word of the day, track how many times can you/your family use the word correctly in a day Write letters to family, friends, senior living/nursing home, etc. and mail them Write in a journal Take pictures and narrate them in a video/slideshow Make a movie or video. Write your own script or use a play or short story for inspiration Read aloud to younger siblings (have them draw pictures to illustrate the story) Create a book club and discuss books over Zoom 	 Actively Learn Adobe Spark ReadWorks Khan Academy Grammar NewsELA ReadWorks
Social Studies	 Watch a historical movie and research the accuracy of the movie when finished CrashCourse on Youtube has great videos breaking down historical periods and events 	 <u>Tween Tribune</u> <u>Actively Learn</u> <u>Newsela -</u> click on Get Instant Access <u>American History in Video - AEA</u> <u>National Geographic</u> <u>Crash Course Youtube</u>
Math	 Try a daily game of Sudoku, Kenken or Hidato Algebra I, Algebra II and Geometry, complete the Maintaining Mathematical Proficiency section in your student journal (beginning page of each unit) Review and practice perimeter, area, circumference, surface area, and volume on Khan Academy or Math Antics. Geometry - look at Google Classroom 	 <u>Delta Math</u> <u>Khan Academy</u> <u>Math Antics Videos</u>
Science	 Read text and work your way through the activities and questions in the chapters Chapter 7: Chemical Reactions Chapter 8: Reactions in Aqueous Solutions 	 <u>Tween Tribune</u> <u>Newsela</u> - click on Get Instant Access <u>Actively Learn</u> <u>Explore Mars</u> <u>Smithsonian Learning Lab</u>

	 Chapter 9: Chemical Quantities Chapter 13: Gases (Gas Laws) YouTube topics from the chapters for further clarity 	 <u>Chemistry Topics</u> <u>Science Grade 9</u> <u>Physics</u>
Art	 Use this time to explore what other artists have done. Try searching art museum sites. Make a list of artists who inspire you. Try picking up one or two ideas from their styles and incorporating those ideas into your own original work. For example, use a color palette you find inspiring, or a line quality, or a brush stroke. If art materials are limited or non-existent, get creative with materials at hand. Cut up recycling items such as junk mail or containers to find bits of found color to collage into art. Try sculpting with papier mache made from flour and water and newsprint. Or make a dough from flour, salt, and water and make small air-dry sculptures. 	 <u>Google Arts & Culture</u> <u>27 art activities to try at home</u> <u>100 sketchbook prompts</u> <u>https://www.metmuseum.org/</u> <u>https://www.tate.org.uk/art</u> <u>https://www.artic.edu/</u> <u>https://hirshhorn.si.edu/</u> <u>https://www.louvre.fr/en</u>
Music	 Practice Elements/Disney at the Movies Learn a pop song by ear Work on scales Record a multitrack video of you playing a song (Use acapella app) Practice with friends using Zoom Clean your instrument! (Instructions on Google Classroom) Listen to an entire album with no distractions (No phones!) Safety Dance 	 Smart Music Soundzabound Sight Reading Factory Zoom Music Theory Daily Warm Up Digital Concert Hall
PE	 Get outside walking and running are great stress relievers also the outdoors makes you feel better Yoga again practice being in the moment think about the now Do 100 push ups/100 crunches/100 burpees everyday Make up your own workout and make you family member participate Make sure you do something everyday, it will help you feel better 	 <u>Open PE</u> <u>Teen Health and Wellness</u> AthleanX on youtube PLT4M App for in-home workouts <u>At-home Workout #1</u> <u>At-home Workout #2</u> <u>At-home Workout #3</u>

	 If you have ping pong table have a tournament with your family Take your dog for a long walk Challenge your friends through snapchat of what their workout is each day Set a goal to achieve by April 12 example: be able to run a mile without stopping, do 100 push ups without stopping 	
Library	• Read a children's book aloud, record it and share it with others to listen to.	• <u>Code.org</u>
Spanish	 Watch a dvd with subtitles in Spanish or The movie dubbed in Spanish with English subtitles. There are free online or phone apps to review or learn vocabulary words. Call a friend and only speak in Spanish Write a postcard to a friend or loved one in Spanish Review Spanish vocabulary 	 <u>Duolingo</u> Babble Classzone <u>Spanish Children's Stories</u>
CTE	 Ag Education / FFA - Design a vegetable garden Start garden vegetable plants inside to transplant in May Service lawn mower to get it ready for the season Oil Blades Air filter Fresh Fuel Clean flower beds and yard Roll the lawn with a lawn roller If you need one, ask me Help get equipment ready for spring planting season Work on your SAE projects FCS - Find & make a recipe using the ingredients you have in the pantry Organize your pantry and make a list of items needed Watch a cooking show or video to learn cooking skills Clean out your closets while pairing 	 Business - check out google classrooms!
