Ohio Department of Health School Immunization Requirements

To: 11th Grade Parents/Guardians

From: Twinsburg High School Health Clinic

Date: May 5, 2023

Subject: Meningococcal Vaccine

Beginning with the 2016/2017 school year, the Ohio Department of Health School Immunization Requirements have been revised to include two (2) doses of **Meningococcal (MCV4) vaccine** a student enters the 12th grade.

The second (2nd) dose of **MCV4** must be administered on or after the 16th birthday with at least eight (8) weeks between the first (1st) and second (2nd) dose. If the first dose of **MCV4** was administered on or after the 16th birthday a second dose is not required.

Therefore, your current 11th grader will need to show proof of having received the **Meningococcal (MCV4)**, vaccine(s) before they can return to school in the fall.

Send in a copy of your student's immunization record from the physician or clinic you visited to fax number **330.405.7406** or email a copy to nisaacson@twinsburgcsd.org, or bring a hard copy up to the high school. Your student will need to show proof of having received both doses of this required vaccine **on or before September 1st or your student will be excluded from school.**

You are receiving this letter now in order to provide you with ample time to have your child immunized before the coming school year begins.
