Murrah High School
Virtual Learning Applications

School Email

https://go.jpsms.org
Select JPS Clever
Login in with school email address and password

Each student has a school email address powered by Gmail. The email address is their MSIS Number aka Lunch Number as the username and the extension is @jpsms.org. For example, 123456789@jpsms.org. Unless the student has changed their password, the default password is the birthday in mmddyyyy format. If a password reset is needed for the school email, send an email to mhstechsupport@jackson.k12.ms.us.

Learning Management Systems

https://go.jpsms.org
Select JPS Clever
Login in with school email address and password

Clever is the student's dashboard for all applications. Clever is an easy way for your scholar to sign-on to all of the programs used by his or her teacher and the district. This eliminates scholars having to remember multiple usernames and passwords.

Canvas will be an app in the student's Clever account

Teachers will use Canvas to deliver content instantly, allow students to personalize their experience, facilitate a multimedia learning environment. Through a single sign-on, students will have access to a variety of online resources in an organized learning space. It enables student collaboration and student-teacher communications.

Canvas has parent portal which allows parents to see their student's view and understand expectations, see grades or missing assignments, and receive notifications that help them to hold their children accountable in their learning process. Parents can learn how to sign up for the portal at https://www.jackson.k12.ms.us/Page/11664.

Check Schedule and Grades

https://jps.activestudent.net/

ActiveStudent is a web-based application that students can use to view their schedule and keep track of their grades. If a password reset is needed for ActiveStudent, send an email to mhstechsupport@jackson.k12.ms.us.

Check Grades & Student Records

https://jps.activeparent.net

ActiveParent is a web-based application that parents can use to keep track of students' records. JPS parents with more than one student can access records for all of them with one account. From one platform, families can check students' attendance, behavior, and course performance.
