Summary: "

Instructional coaching is a supportive, job-embedded, ongoing, and personalized form of professional learning focused on the teaching of mathematics. Instructional coaches partner with teachers to empower and support them in increasing student learning, developing robust mathematical identities, and developing students' mathematical sense-making abilities. To do this, Instructional Coaches collaborate with teachers to get a clear picture of current reality, identify goals, pick teaching strategies to meet the goals, monitor progress, and problem solve until the goals are met. The work of developing trusting relationships with teachers and collaboratively engaging in the coaching cycle form the foundation of the work of coaching."
