Topic B: Compose Numbers 11-20 from 10 Ones and Some Ones; Represent and Write Teen Numbers

Rubric Score _____

Materials (per student): 20 cubes, personal whiteboard, marker, Hide Zero cards

****Teacher needs the number 13**

T: (Show the numeral 13.) Put this many cubes onto your mat. Use the Hide Zero cards to show the number of cubes on your mat. Move the cubes that the 1 is telling us about into a separate pile. (Point to the 1 of 13 on the numeral 13.)

T: Count out 3 more cubes. Now you have 16 cubes. Write the number 16 on your mat.

Topic C: Decompose Numbers 11-20, and Count to Answer “How Many?” Questions in Varied Configurations

Rubric Score _____

Materials (per student): 20 cubes

- T: Dump all of your cubes onto the mat. Now count out 12 cubes and put them in a straight line. Put the rest of the cubes back in the bowl. Whisper in my ear how many cubes are in the line the Say Ten way.
- T: Move the cubes into 2 rows. Write the number on your mat to tell me how many cubes there are now. Erase the number on your mat.
- T: Move the cubes into a circle. Write the number on your mat to tell me how many cubes there are now. Erase the number on your mat.
- T: Put one more cube in your circle. Write the number on your mat to tell me how many cubes there are now.
