

8th Grade American History

The purpose of this course is for students to develop a knowledge and understanding of American History. We will closely examine the people, places and events that have shaped our nation from the Colonial Era to Western Expansion and the idea of Manifest Destiny. This course utilizes a critical thinking, and narrative approach to history. It places an emphasis not only on what took place, but also on why certain things occurred, what the ramifications of those events were, as well as how those experiences may impact us today. Each unit has been prepared to meet the Pennsylvania State Standards for Social Studies.
