APPENDIX A: Removal of Disruptive Student by Teacher (flowchart)

INTRODUCTION

The Board of Education has a long-standing set of expectations for conduct on school property and at school functions, events, and activities. The Board is committed to providing a safe and orderly school environment where staff, parents and administrators work to deliver quality educational services to students without disruption or interference.

The main objective of the school is education in all forms. Students,¹ staff, teachers, administrators and parents should work to provide an environment where problems can be initially settled by using cooperatively developed and agreed upon procedures for the benefit of the entire school community. The foundation for building this environment is the principles of civility, mutual respect, citizenship, character, tolerance, honesty and integrity.

The Board recognizes the need to clearly define the expectations for acceptable conduct on school property, identify the possible consequences of unacceptable conduct and to ensure that discipline, when necessary, is administered promptly and fairly. To this end, the Board adopts this Code of Conduct.

In accordance with the Dignity for All Students Act, District policy and practice must ensure that no student is subject to discrimination or harassment, based on a person's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender/gender identity or sex by employees or students on school property, on a school bus, or at a school function.

The Mission of the Mineola Union Free School District is to inspire each student to be a life-long learner, pursue excellence, exhibit strength of character and contribute positively to a global society. Mineola Union Free School District will provide programs and conditions that maximize learning successes so that all learners meet individual high-level performance standards.

- 1) We believe that all learners are capable of making incremental progress towards high expectations through authentic experiences.
- 2) We believe that all learners deserve a proactive, individualized approach.
- 3) We believe that a growth mindset should drive the goal setting process for teachers, parents and learners.

The District's approach uses data-based decision making to inform academic and behavioral instruction and intervention based on individual learner needs. This includes consistent articulation about learner programs throughout the school year and across grade levels. Mineola ensures that learners are receiving the appropriate systems that supports their growth.

DEFINITIONS

For purposes of this Code, the following definitions apply:

Bullying -- see harassment/bullying.

Color means the apparent pigmentation of the skin, especially as an indication or possible indication of race.

Controlled Substance means a drug or other substance identified in certain provisions of the federal

¹ The Mineola UFSD typically uses the term "learners" instead of "students." Because New York State Education Law and Regulations generally refer to students, that is the term that will be used throughout this Code of Conduct.

Controlled Substances Act specified in both federal and state law and regulations applicable to this *Code of Conduct*.

Cyberbullying means harassment or bullying where such harassment or bullying occurs through any form of electronic communication.

Detention means an after-school penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate.

Dignity for All Students Act refers to Article 2 of the New York State Education Law, as well as amendments to Sections 801-a and 2801 New York State Education Law made pursuant to Chapter 482 of the Laws of 2010. For purposes of this *Code of Conduct*, it will also refer to subsequent amendments to those statutes, and to any and all regulations promulgated by the Commissioner of Education to achieve the aims set forth in Chapter 482 of the Laws of 2010. The intent of the Dignity Act is to provide all public elementary and secondary school students with a safe and supportive environment free from discrimination, harassment, bullying, taunting or intimidation, as well as to foster civility in public schools.

Disability means:

- 1) A physical, mental or medical impairment that substantially limits a normal bodily function or one or more major life activities; or
- 2) A record of such an impairment; or

Discrimination- for purposes of prohibited conduct under the Dignity for All Students Act (DASA) means differential treatment of any student by a student or students and/or an employee or employees on school property or at a school function including, but not limited to, discrimination based on a person's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender or sex.

Disruptive Student means a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom.

Emotional Harm that takes place in the context of harassment or bullying means harm to a student's emotional well-being through creation of a hostile school environment that is so severe or pervasive as to unreasonably and substantially interfere with a student's education.

Employee means any person receiving compensation from a school district, or any employee of a contracted service provider, or a worker placed within the school under a public assistance employment program.

Harassment/bullying for purposes of prohibited conduct under the Dignity for All Students Act (DASA) means the creation of a hostile environment by conduct or by threats, intimidation or abuse, including cyberbullying based on a person's membership in a protected class that:

- 1) Has or would have the effect of unreasonably and substantially interfering with a student’s educational performance, opportunities or benefits, or mental, emotional or physical well-being; including conduct, threats, intimidation, or abuse that reasonably causes or would reasonably be expected to cause emotional harm; or

Any physical control that is used will be used in a way to control and protect students.

STUDENT DRESS CODE

All students are expected to give proper attention to personal cleanliness and to dress appropriately for school and school functions. Students and their parents are responsible for acceptable student dress and appearance. They have the right to determine how the student dresses, provided that their attire is not destructive to District property, complies with requirements for health and safety, does not interfere with or distract from the educational process, or infringe upon the rights of others. Teachers and all other District staff should exemplify and reinforce acceptable student dress and by example help students develop an understanding of appropriate appearance in the school setting.

A student's dress, grooming and appearance, including hair style/color, jewelry, make-up and nails, will:

- 1) Be safe, appropriate and not disrupt or interfere with the educational program.
- 2) Not be excessively revealing or see-through; underwear must be completely covered with outer clothing.
- 3) Include appropriate footwear at all times. Footwear that is a safety hazard is not permitted.
- 4) Not include the wearing of headwear in the classroom except for a medical or religious purpose.
- 5) Not include items that are vulgar, obscene, libelous or denigrate others on account of actual or perceived race, color, religion, creed, national origin, gender, sex, sexual orientation, disability, or other legally protected category.
- 6) Not promote and/or endorse the use of alcohol, tobacco or illegal drugs and/or encourage other illegal or violent activities. Not display any signs of gang affiliation that may increase the level of conflict or violent behavior in schools, or under circumstances in which school administration may reasonably forecast that violence or substantial disruption of school activities will occur.
- 7) All Students grade eight (8) or higher must have their visible current year school ID badge at all times, during the school day.

Each building principal or designee is responsible for informing all students and their parents of the student dress code at the beginning of the school year as well as any revisions to the dress code made during the school year.

Students who violate the student dress code will be required to modify their appearance by covering or removing the offending item, and if necessary or practical, replacing it with an acceptable item. Any student who refuses to do so may be subject to discipline, up to and including in-school suspension for the day. Any student who repeatedly fails to comply with the student dress code may be subject to further discipline, up to and including out-of-school suspension.

Teachers and all other personnel serve as role models to the students they work with. They should exemplify and reinforce acceptable student dress and behavior, and help students develop an understanding of appropriate appearance and conduct in a school setting by attending to their own appearance through these guidelines. Staff are expected to wear clothing that is modest, safe, clean, in good repair, appropriate to their program, and not disruptive to the educational process.

SCHOOL IDENTIFICATION BADGES

The purpose of the school ID badges is to ensure the safety and security of all individuals. Identification cards will be provided to all school personnel including staff and students. Every school community member must wear their ID badge at all times on school grounds, as it is crucial to be able to identify everyone on school campus. Identification badges are a safety issue, as they help us identify staff and students, as well as potential trespassers.

PROHIBITED STUDENT BEHAVIOR

All students will conduct themselves in an appropriate and civil manner in accordance with the District *Code of Conduct*. This includes proper regard for the rights and welfare of other students, personnel, other members of the school community, and facilities and equipment.

Discipline should be self-imposed; students must learn to assume and accept responsibility for their own behavior, as well as the consequences of their misbehavior. District personnel who interact with students are expected to use disciplinary action only when necessary and to emphasize the student's ability to develop self-discipline.

Students who do not accept responsibility for their own behavior or who violate these rules may be disciplined up to and including suspension from school or removal from a program, when they engage in conduct that is disorderly, insubordinate, disruptive, violent, endangers the safety, morals, health or welfare of others, engage in misconduct on the school bus, or engage in academic misconduct including work/internship sites.

Students are expected to promptly report any violations to a teacher or administrator. Anyone who, in good faith, reports a violation of the law, school rule, or *Code of Conduct*, may not be retaliated against. Students who *knowingly* make false accusations against another individual may face disciplinary action. This can include, but is not limited to, knowingly making false statements or knowingly submitting false information during the grievance process under Title IX, which is prohibited by this *Code*.

Students may be subject to disciplinary action, up to and including suspension from school, when they:

A. Engage in Conduct That is Disorderly

Examples of disorderly conduct include, but are not limited to:

- 2) Obstructing vehicular or pedestrian traffic.
- 3) Trespassing. Students are not permitted in any area of the school buildings, other than the areas they regularly attend, without permission from the administrator in charge of the building.

other synthetic or designer drugs.

The definition of illegal drugs includes controlled substances. While cannabis (marijuana) is a controlled substance under federal law, it has been legalized by New York State for adult use under certain circumstances. However, it is illegal for anyone under the age of 21 to purchase, possess, or use cannabis. Regardless of age, the sale, purchase, possession, and/or use of cannabis is prohibited on school grounds under state and federal laws and District policy.

- 11) Unauthorized possession, use, sale of, attempted sale of, distribution of, or exchange of prescription and over-the-counter drugs, vitamins, supplements, herbs or other similar substances.

F. Engage in Misconduct While on a School Bus

The Mineola Union Free School District furnishes transportation to students under federal and New York State law and District Policy. Except as otherwise mandated by law, riding these buses is a privilege and may be withdrawn if the student does not comply with the rules and regulations set forth in the Code of Conduct.

Bus drivers are primarily responsible for the safe and lawful operation of the school buses and the safe transportation of students. Bus drivers are authorized to help ensure reasonable and acceptable behavior of students while riding the school bus. Bus drivers are also authorized to address student behavior that inhibits or may reasonably be expected to inhibit the safe operation of the school bus. Students riding school buses are expected to conform to the rules of conduct in order to permit the bus driver to transport their passengers safely.

The Board, the Superintendent and/or designee has the authority to suspend the transportation privileges of children who are disorderly and insubordinate on buses. Generally, parent(s)/guardian(s) will be required to make alternative transportation arrangements for their children who have been suspended from riding the bus. However, the effect of a suspension from transportation on the student's ability to attend school will be

considered. If a suspension from transportation effectively results in a suspension from attendance because of the distance between the home and the school and the absence of alternative public or private means of transportation, the District shall make appropriate arrangements to provide for the student's education.

If a student with a disability who receives transportation as a related service as part of their Individualized Education Program is being considered for suspension from transportation, and that suspension would effectively result in a change in placement, the student shall be referred to the Manifestation Team or the Committee on Special Education.

G. Engage in Any Form of Academic Misconduct (See Section on Academic Integrity)

Examples of academic misconduct include, but are not limited to:

- 1) Plagiarism.
- 2) Cheating in any form or by any means, including by use of District or personal computer or other electronic devices.
- 3) Use of artificial intelligence (AI) in homework, short- and long-term assignments, quizzes, tests, examinations and labs, except as specifically directed or permitted by the teacher.

- 9) Taking exam, quiz, lab or any other instructional questions answers or forms to further one or more students' grade or progress.
- 10) Violation of copyright laws.
- 11) Assisting another student in any of the actions listed here.

USE OF PERSONAL TECHNOLOGY AND ELECTRONIC DEVICES

The Board seeks to maintain a safe and secure environment for students and staff. Advances in technology have made it possible to expand the learning environment beyond traditional classroom boundaries. Using personal electronic devices during instructional time can enable students to explore new concepts, personalize their learning experience and expand their global learning opportunities. Additionally, the use of personal technology devices is ubiquitous in today's society and standards for student use during non-instructional time should adapt to this change. This policy defines the use of personal technology during instructional and non-instructional times and reinforces the standard that all use, regardless of its purpose, must follow the guidelines outlined in the Student Responsible Use Policy (RUP), the District's Code of Conduct, and the Dignity for All Students Act.

Personal technology includes all existing and emerging technology devices that can take photographs; record or play audio or video; input text; upload and download media; connect to or receive information from the Internet; and transmit or receive messages, telephone calls or images. Examples of personal technology include, but are not limited to, MP3 players; iPad, Nook, Kindle, and other tablet PCs; laptop and chromebook computers; personal digital assistants (PDAs), cell phones and smart phones such as iPhone, or Android, as well as any device with similar capabilities. Unacceptable devices shall include, but are not limited to, gaming devices or consoles, laser pointers, modems or routers, and televisions.

Instructional Uses

Instructional uses include, but are not limited to, approved classroom activities, research, college admissions activities, career development, communication with experts, homework, and other activities considered appropriate by school staff.

Students are permitted to have and use any personal technology device as authorized by their teachers and administration for instructional use in classrooms. Students are expected to act responsibly and thoughtfully when using technology resources. While students are permitted to possess and use these devices during the school day, they are prohibited from using them in any manner which invades the privacy of students, employees, volunteers or visitors or that otherwise violates law or any provision of this *Code of Conduct*. If a student violates this prohibition, then they may be disciplined under this *Code of Conduct*. Students should keep any permitted electronic device on school property in a safe and responsible manner as instructed by the building principal. Passwords and personal technology devices should not be shared with others. A student's electronic device may be confiscated and subject to a search in accordance with sections of this Code, if school officials have reasonable suspicion to believe that the search will reveal evidence of a violation of law, the *Code of Conduct*, or other school rules or policies.

Non-Instructional Uses

Appropriate use of personal technology during non-instructional time is also permitted if students follow the guidelines in the RUP and *Code of Conduct*. Non-instructional use includes texting, calling or otherwise communicating with others during free periods and within common areas of the school building such as the hallways, cafeteria, study halls, buses and student lounges. Other non-instructional uses may include Internet searches, reading, listening to music and watching videos. Use during non-instructional time must be conducted in a safe and unobtrusive manner while respecting the privacy of others. Devices must be in silent mode to avoid disrupting others.

Teachers and all other personnel should exemplify and reinforce acceptable student behavior including possession and use of electronic devices.

Prohibition During State Assessments

Unless authorized by law, regulation, or government rule, all students are prohibited from bringing electronic devices into a classroom or other location where a New York State assessment is being administered. Test proctors, monitors and school officials have the right to collect prohibited electronic devices prior to the start of the test and hold them while the test is being administered, including break periods. Admission to any assessment will be denied to any student who refuses to relinquish a prohibited device.

Liability

The District shall not be liable for the loss, damage, misuse, or theft of any personal technology brought to School. The District reserves the right to monitor, inspect, and/or confiscate personal

technology when administration has reasonable suspicion to believe that a violation of school policy or criminal law has occurred. The Board expressly prohibits use of personal technology in locker rooms, restrooms, Health Offices and any other areas where a person would reasonably expect some degree of personal privacy.

ACADEMIC INTEGRITY

Academic integrity is honest and responsible scholarship, with each student holding themselves to the highest standards of academic conduct and personal integrity. Students who do not act with integrity are depriving themselves of the chance to think, grow, and learn. Lack of integrity also damages relationships and creates mistrust between teachers and students. Academic integrity is accomplished with hard work and good study habits, avoiding any hint of academic misconduct. Faculty members are available to assist students with proper citation methods and research skills.

Examples of academic misconduct are listed below and include but are not limited to:

Cheating: copying or trying to copy from other students during an exam or assignment, sharing answers during an exam, hiding materials or prepared answers during an exam, purchasing papers from online sellers, submitting the same work for more than one class without approval from the teachers, taking an exam for another student, or having someone take an exam on your behalf.

Plagiarism: copying passages from the work of another author without properly citing the source, submitting purchased, copied or online work as your own, or using the views or opinions of others without acknowledgement.

Class Materials: removing or defacing class or library materials so other students cannot use them, altering or contaminating work in lab experiments, or selling or sharing course materials without permission of the teacher or publisher.

False Information: lying to a teacher when questioned on issues of academic misconduct, making false statements to obtain a better grade, or altering results or data from work conducted for an assignment.

Theft/Damage of Another's Work: stealing or damaging another student's classwork or the means by which they do their classwork, or stealing exam questions or answers from a teacher or test site.

Altering School/District Records: forging signatures, altering transcripts and electronic student records, or altering a teacher's grade report or comments.

Disrupting the Classroom: interfering in the process of instruction to the detriment of other students, disrupting class to silence differing viewpoints, or creating a fake emergency such as a fire alarm or bomb threat to ensure class is cancelled.

Improper Use of Computers, Calculators and Other Technology: preprogramming a calculator or other device to contain answers during an exam, using a cell phone or other device to photograph or copy an exam, using AI when not directed or specifically permitted by the teacher or violating the District's RUP.

HARASSMENT, BULLYING AND DISCRIMINATION

The District seeks to create an environment free of harassment, bullying, and discrimination, to foster civility in its schools, and to prevent conduct which is inconsistent with its educational mission. The District, therefore, prohibits all forms of harassment and bullying of students by employees or other students on school property and at school functions. The District further prohibits discrimination against

students, including but not limited to those acts based on a person's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender, gender identity or expression, or sex by school employees or other students on school property and at school sponsored activities and events that take place at locations off school property. In addition, acts of harassment, bullying, that occur off school property, where these acts create or would foreseeably create a risk of substantial disruption within the school environment, where it is foreseeable that the conduct, threats or intimidation or abuse might reach school property, may be subject to discipline or other corrective action.

The District will take disciplinary measures for incidents involving harassment, bullying, and/or discrimination consistent with this *Code of Conduct*. Responses will be reasonably calculated to end the harassment, bullying, and/or discrimination, prevent recurrence, and eliminate any hostile environment.

The District may also avail itself of remedial responses to incidents of harassment, bullying, and/or discrimination to end this behavior. Remedial responses may include, but are not limited to: peer support groups; corrective instruction or other relevant learning or service experience; supportive intervention; or other research-based methods of harassment, bullying, or discrimination prevention

Dignity Act Coordinators (DAC)

In each of its schools, the District has designated at least one employee to serve as a DAC. In accordance with the regulations of the Commissioner of Education, each DAC has been thoroughly trained in the areas of: human relations; harassment, bullying, and discrimination; and exclusion, bias, and aggression in the educational setting. The DACs are charged with coordinating and enforcing the requirements of the Dignity for All Students Act and its implementing regulations and policies.

The Dignity Act Coordinators for each school are identified as the following:

- 1) High School, 516-237-2620
Dean of Students, David Bodner
School Social Worker, Stacey Rosenblatt
Assistant Principal, Stephanie Honig
Teacher, Jason Sauter
- 2) Middle School, 516-237-2500
Dean of Students, Steve Benner
School Social Worker, Marta Fernandez
- 3) Meadow Drive School, 516-237-2400
Building Principal, Jennie Fahey
School Social Worker, Geraldine Delgado
- 4) Jackson Avenue School, 516-237-2300
Building Principal, Catherine Shanahan
Assistant Principal, Angeliki Loukatos
School Social Worker, Nayeli Calle
- 5) Hampton Street School, 516-237-2200
Building Principal, Leigh Shaw
School Social Worker, Geraldine Delgado

Prohibition of Retaliatory Behavior

In accordance with New York State Education Law any person who has reasonable cause to suspect that a student has been subjected to harassment, bullying, or discrimination by an employee or

student, on school grounds or at a school function, who acts reasonably and in good faith and reports that information to school officials, the Commissioner of Education, or law enforcement authorities, or otherwise initiates, testifies, participates, or assists in any formal or informal proceedings, will have immunity from any civil liability that may arise from making the report, or from initiating, testifying, participating, or assisting in such proceedings. Furthermore, the Board prohibits any retaliatory action against any person who, acting reasonably and in good faith, either makes a report of harassment, bullying, or discrimination, or who otherwise initiates, testifies, participates, or assists in the investigation of a complaint of harassment, bullying, or discrimination.

REPORTING VIOLATIONS

All students are expected to promptly report violations of the *Code of Conduct* to a teacher, guidance counselor, the building principal or designee. All District staff who are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair and lawful manner. District staff who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the *Code of Conduct* to their supervisor, who will in turn impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

There is also a web reporting link for bullying at:

https://www.mineola.k12.ny.us/Assets/District_Information/113016_DASA_INCIDENT_REPORT_FORM.pdf?v=776

The building principal or designee must notify the appropriate local law enforcement agency of those Code violations that constitute a crime and substantially affect the order or security of a school as soon as practical, but in *no* event later than the close of business the day the principal or designee learns of the violation. The notification may be made by telephone, followed by a letter mailed on the same day as the telephone call is made. The notification must identify the student and explain the conduct that violated the *Code of Conduct* and constituted a crime.

Reporting Weapons or Substance Abuse Violations

Any student or staff observing a student possessing a weapon, alcohol or other illegal drugs/substance on school property or at a school function, will report this information immediately to the building principal or designee. Any weapons, alcohol or illegal drugs/substances found will be confiscated immediately, followed by notification of the parent of the student involved and the appropriate disciplinary action taken, up to and including permanent suspension and referral for prosecution.

The definition of illegal drugs includes controlled substances. While cannabis (marijuana) is a controlled substance under federal law, it has been legalized by New York State for adult use under certain circumstances. However, it is illegal for anyone under the age of 21 to purchase, possess, or use cannabis. Regardless of age, the sale, purchase, possession, and/or use of cannabis is prohibited on school grounds under state and federal laws and District policy.

DISCIPLINARY CONSEQUENCES, PROCEDURES, AND REFERRALS

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use appropriate disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

Disciplinary action will be firm, fair and consistent so as to be the most effective in changing

student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

- 1) The student's age.
- 2) The nature of the offense and the circumstances that led to the offense.
- 3) The student's prior disciplinary record.
- 4) The effectiveness of other forms of discipline.
- 5) Information from parents, teachers and/or others, as appropriate.
- 6) Other extenuating circumstances.

Generally, discipline will be progressive and will include measured, balanced, and age-appropriate remedies and procedures that make appropriate use of prevention, education, intervention and discipline. This means that both the number of violations and severity of the behavior will be considered when determining consequence. For example, a student's first violation will usually merit a lighter penalty than subsequent violations.* In addition, discipline will include an educational component, providing students with an understanding of the effects of their behavior upon others and an opportunity, as determined by District administration and when appropriate, to repair the harm done as a part of the process.

Measured, balanced, progressive and age-appropriate responses will be provided as a response to some instances of discrimination, harassment and bullying of students and/or employees and other types of behaviors that may benefit from a restorative approach. Remedial responses put the focus on understanding and correcting the reasons why the behavior occurred. These remedial responses can be designed to correct the problem behavior, prevent another occurrence of the behavior, and protect the target of the act. Some appropriate responses may include corrective instruction that emphasizes behavioral expectations or other relevant learning or service experience; engagement of student in a reflective activity, such as writing an essay about the misbehavior and its impact on others and how the student might handle the situation differently in the future and/or make amends to those who have been harmed; supportive intervention and/or mediation where constructive conflict resolution is modeled; behavioral assessment or evaluation, behavioral management plans or behavioral contracts, with benchmarks that are closely monitored; and student counseling and parent conferences that focus on involving parents in discipline issues.

Restorative Practices

In the event that students do not abide by the principles of the Code of Conduct, the District, along with disciplinary consequences, will use a restorative practices approach. Restorative practices focus on repairing the harm done to people and relationship, rather than only focusing on punishing offenders. Students, staff, and faculty meet with those they have wronged, reflect on what happened, and make necessary amends. The restorative practices process can happen in groups as small as three and as large as a whole class.

Restorative Practices Principles

- 1) Restorative practices focus on harms rather than rules or persons and the consequent needs of all community members.
- 2) Restorative practices use inclusive, collaborative processes.
- 3) Restorative practices involve all individuals who have a legitimate stake in a given situation.

- 4) Restorative practices seek to put right the wrongs that have been done, so that victims feel safe and valued, while offenders feel restored to the school environment.

Restorative Justice Principles

- 1) Acknowledge that relationships are central to the building of the school community.
- 2) Must establish policies and procedures that harm and misbehavior offers a chance to repair and strengthen relationships.
- 3) Focus on harms done rather than rules broken.
- 4) Give voice to the person who has been harmed.
- 5) Engage in collaborative problem solving.
- 6) Empower change and growth for all involved.
- 7) Enhance responsibility for actions and attitudes for all involved.

Along with completing disciplinary consequences, learners will participate in restorative repair relevant to their behavior. Options include restorative reflection questions, community service and formal restorative conference.

Disciplinary Consequences

Students learn socially appropriate behavior by being allowed to experience both positive and negative consequences for their actions. In addressing student behaviors that may impede learning, the District uses a variety of appropriate classroom management techniques including:

- 1) Positive supports, strategies, and interventions to improve students' motivation, social skills, problem solving abilities, anger management, and conflict resolution abilities;
- 2) Environmental modifications to support students' abilities to maintain attention, stay on task, and control their behavior.
- 3) Building-wide behavior management systems to improve students' abilities to understand the connections between their behavior and more or less desired outcomes.

As a general practice and whenever possible, these interventions are used in combination before imposing more severe disciplinary consequences.

Students who violate the *Code of Conduct* may be disciplined as follows:

DISCIPLINARY CONSEQUENCE	PERSONNEL IMPOSING THE CONSEQUENCE
1) Verbal Warning	Any staff member
2) Written Warning/Referral	Educational program staff and bus drivers
3) Written notification to parent	Teachers, student support services personnel, principal or designee.
4) Suspension of other privileges	Principal or designee

5) Detention	Teachers, principal or designee
6) In-School Suspension	Principal or designee
7) Formal removal from classroom	Teachers, principal
8) Short-term (five days or less) suspension	Principal
9) Long-term (more than five days) suspension from school	Superintendent, Board of Education
10) BOCES Program exclusion	Officials of the BOCES and the student's home district
11) Permanent suspension from school	Superintendent, Board of Education

Students may be required to reimburse the District as restitution for costs or damages incurred resulting from any misconduct.

During the period of school suspensions, students are not permitted on any school grounds of the District, or at any school sponsored events involving the District regardless of whether events are held on or off of school grounds of the District, unless they receive prior written consent.

Parents are powerful partners in a student's behavioral growth, and in their child's development of acceptable social skills. The District realizes that good communication and informal relations between parents and educators are critical to resolving discipline issues. The use of sustained, multiple, coordinated intervention at home and in school provides students with the consistency they need to develop appropriate behaviors. Parents should help the school staff by reinforcing positive behavior and disciplinary consequences. The District recognizes that parental involvement in the behavioral process is required for the student to develop the behaviors that will ensure success in the school setting and life. Therefore, it is our philosophy to provide parents with regular and early notification by telephone or in writing when a student's behavior is becoming problematic in addition to the required procedural notifications specified below.

Procedures

The due process a student is entitled to receive before a penalty is imposed depends on the circumstances. In all cases, regardless of the penalty imposed, the authorized school personnel must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts before the penalty is imposed.

Students who receive penalties other than an oral warning, written warning or written notification to their parents are entitled to additional process before imposition of the penalty which are explained below.

Detention

Teachers, principals and the Superintendent may use after school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate. Detention will be imposed as a penalty only after the student's parent has been notified.

Suspension from Transportation

Students who become a serious disciplinary problem while on a school bus may have their riding privileges suspended by the building principal or the Superintendent or their designees. In these cases, the student's parent will become responsible for seeing that their child gets to and from school safely.

Should the suspension from transportation amount to a suspension from attendance because of unavailability of private or public means for the student to get to school, the District will make appropriate arrangements to provide for the student's education. A student subjected to a suspension from transportation is not entitled to a full hearing in accordance with Education Law Section 3214. However, the student and the student's parent will be provided with a reasonable opportunity to discuss the alleged misconduct with the building principal or designee and the consequences arising from that conduct.

Suspension from Athletic Participation, Extracurricular Activities and Other Privileges

A student subjected to a suspension from athletic participation, extracurricular activities or other privileges is not entitled to a full hearing in accordance with Education Law Section 3214. The student and the student's parent will be provided with a reasonable opportunity to discuss the misconduct with the District official imposing the suspension and consequences arising from that conduct.

In-school Suspension

The school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. Therefore, building principals and the Superintendent may place students who would otherwise be suspended from school as the result of a violation of the *Code of Conduct* into in-school suspension. Students will be provided with alternative instruction by appropriately certified teachers in accordance with applicable law.

Positive Alternative to School Suspension (PASS) Guidelines:

- 1) If it becomes necessary to remove a student from their scheduled instruction for a period of time, the PASS room may be used as an alternative to Out-of-School suspension. This method will not deprive the student of educational time, but will provide assistance in their academic work and incorporate a counseling component to assist the student in dealing with the consequences of their actions. The teachers and counselors assigned to the PASS room will assist the students in meeting the goals outlined for them. The purpose of this time is to have the students understand why they are in PASS and what alternative strategies or decisions may have been implemented to avoid PASS. In addition, the students will complete their academic work. All staff members will be required to provide work for the student while in PASS. The work will be returned to the staff at the end of each day.

A student subjected to an in-school suspension is not entitled to a full hearing in accordance with Education Law Section 3214. The student and the student's parent will be provided with a reasonable opportunity to discuss the conduct and the penalty involved with the District official imposing the in-school suspension. The District will notify parents/guardians of their child's placement in in-school suspension in accordance with applicable law.

Removal of Disruptive Students by a Teacher

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances, the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain their composure and self-control in an alternative setting. These practices may include, but are not limited to:

- 1) Short-term time away from instruction in an elementary classroom or in an administrator's office;
- 2) Sending a student to the principal's office for the remainder of the class time only; or

- 3) Sending a student to a guidance counselor or other District staff member for counseling. Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of this Code.

On occasion, a student's behavior may become substantially disruptive. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom rules.

A classroom teacher may remove a disruptive student from class for up to two days. The removal from class applies to the class of the removing teacher only. The teacher will follow the procedure in Appendix A.

Suspension from School

Suspension from school is a more severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others.

The Board may suspend students, but places primary responsibility for the suspension of students with the Superintendent and the building principals.

Any staff member may recommend to the Superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the Superintendent for a violation of the *Code of Conduct*. All recommendations and referrals will be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention, in which case, a written report will be prepared as soon as possible.

The Superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, will gather the relevant facts and record them for subsequent presentation, if necessary.

1) Short-term (Five Days or Less) Suspension from School

The District will initiate the suspension of students when other forms of behavior intervention and disciplinary action have failed, unless circumstances, including but not limited to the severity of the conduct, otherwise warrant.

- a. Suspension may only be imposed by a principal or the Superintendent for a period of time not to exceed five school days. Suspensions may not be imposed by any other staff member.
- b. The student being suspended must be told of the proposed suspension and the reason for the proposed suspension by the appropriate administrator.
- c. The student's parents are to be notified in writing of the proposed suspension by personal delivery, express mail delivery, or equivalent means within 24 hours with notification by telephone, where possible.
- d. The student and parent will, on request, be given an opportunity for an informal conference with the principal and complaining witnesses. At the conference, the parents will be permitted to ask questions of complaining witnesses under procedures established by the principal. The notice and opportunity for an informal conference will take place before the suspension unless the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, in which case the

notice and opportunity for an informal conference will take place as soon after the suspension as is reasonably practicable.

- e. A copy of the suspension letter will be placed in the student's file.
- f. Upon return to school for reinstatement, the student should be accompanied, if possible, by either or both parents for a reinstatement interview. A telephone conference may also be required.
- g. An appeal of the principal's decision may be made to the Superintendent. All appeals to the Superintendent must be in writing and submitted to the Superintendent within ten business days of the date of the principal's decision, unless the parents can show that extraordinary circumstances precluded them from doing so.
- h. An appeal of the Superintendent's decision may be made to the Board of Education. All appeals to the Board must be in writing and submitted to the District Clerk within ten business days of the date of the Superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

2) Long-term (More Than Five Days) Suspension from School

When the Superintendent or building principal determines that a suspension for more than five days may be warranted, they will give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student will have the right to be represented by counsel, the right to question witnesses against them and the right to present witnesses and other evidence on their behalf.

The Superintendent will personally hear and adjudicate the proceeding or may, at their discretion, designate a Hearing Officer to conduct the hearing. A record of the hearing will be maintained, but no transcript will be required. A tape or digital recording will be deemed a satisfactory record. The Hearing Officer will make findings of fact and recommendations as to the appropriate measure of discipline to the Superintendent. The report of the Hearing Officer will be advisory only, and the Superintendent may accept all or any part.

An appeal of the Superintendent's decision may be made to the Board that will make its decision based solely on the record before it. All appeals to the Board must be in writing and submitted to the District Clerk within ten business days of the date of the Superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The Board may adopt in whole or in part the decision of the Superintendent. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

3) Permanent Suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function.

Minimum Periods of Suspension

Weapon in School

Any student found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing in accordance with Education Law Section 3214. The Superintendent has the authority to

modify the one-year suspension on a case-by-case basis considering appropriate factors. In deciding whether to modify the penalty, the Superintendent may consider the following:

- 1) The student's age;
- 2) The student's grade in school;
- 3) The student's prior disciplinary record;
- 4) The Superintendent's belief that other forms of discipline may be more effective;
- 5) Input from parents, teachers and/or others; and
- 6) Other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of New York State and federal law and regulations.

Violent Acts Other Than Bringing a Weapon to School

Any student who is found to have committed a violent act, other than bringing a weapon onto school property, will be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the appropriate factors considered in modifying a one-year suspension for possessing a weapon.

Repeatedly Substantially Disruptive of the Educational Process or Repeatedly Substantially Interferes with the Teacher's Authority Over the Classroom

Any student who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom will be suspended from school for at least five days. For purposes of this *Code of Conduct*, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) in accordance with Education Law Section 3214(3-a) and this Code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the appropriate factors considered in modifying a one-year suspension for possessing a weapon.

Referrals

Counseling

School administration, guidance office, and pupil personnel staff will handle referrals of students to counseling.

PINS Petitions

The District may file a PINS (person in need of supervision) petition in Family Court on any student under the age of 18 who demonstrates that they require supervision and treatment by:

- 1) Not attending school or is habitually truant;
- 2) Behaving in a way that is ungovernable, or habitually disobedient and is beyond the control of a parent, guardian, or the school;
- 3) Violating the provisions of Penal Law Section 230.00.
- 4) Having been the victim of sexual exploitation, provided they consent to the filing.

The District will follow all PINS procedures required by the Family Court in their jurisdiction.

Juvenile Delinquents and Juvenile Offenders

The Superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:

- 1) Any student under the age of 16 who is found to have brought a weapon to school, or
- 2) Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law Section 1.20 (42).

The Superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

Law Enforcement

Building principals, supervisors, acting principals, or the Superintendent or designee may notify local law enforcement in the event a violation of this *Code* constitutes a crime. This notification will be made not later than the close of business the day the principal/supervisor/acting principal/DS or designee learns of the violation, or as soon as practicable. The notification will identify the student and explain the conduct at issue. As appropriate, the District will pursue the filing of criminal charges against the student involved in the misconduct.

ALTERNATIVE INSTRUCTION

When a student is removed from class by a teacher or a student of compulsory attendance age is suspended from school in accordance with Education Law Section 3214, the District will take immediate steps to provide alternative means of instruction for the student.

DISCIPLINE OF STUDENTS WITH DISABILITIES

It may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or inappropriate behavior. Students with disabilities are entitled to certain procedural protections whenever school authorities intend to impose discipline upon them that may constitute a change of their educational placement. The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This *Code of Conduct* affords students with disabilities subject to disciplinary action no greater or

lesser rights than those expressly afforded by applicable federal and state law and regulations.

Authorized Suspensions or Removals of Students with Disabilities

For purposes of this section of the *Code of Conduct*, the following definitions apply.

- 1) A suspension means a suspension in accordance with Education Law Section 3214.
- 2) A removal means a removal for disciplinary reasons from the student's current educational placement other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an Impartial Hearing Officer because the student poses a risk of harm to himself or herself or others.
- 3) An IAES, or interim alternative education setting, means a temporary educational placement, other than the student's current placement at the time the behavior precipitating the IAES placement occurred. A student who is placed in an IAES will continue to receive educational services so as to enable him or her to progress in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the student's individualized education plan (IEP), and receive, as appropriate a functional behavioral assessment and behavioral intervention services and modifications that are designed to prevent the behavior from recurring.

School personnel may order the suspension or removal of a student with a disability from their current educational placement as follows:

- 1) The Board, the Superintendent, or a building principal may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
- 2) The Superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to ten consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, If the Superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior.
- 3) The Superintendent may order additional suspensions of not more than ten consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a disciplinary change of placement.
- 4) The Superintendent may order the placement of a student with a disability in an IAES to be determined by the CSE, for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 days if the student engages in conduct that results in serious bodily harm, carries or possesses a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function.

Subject to specified conditions required by both federal and state law and regulations, an Impartial Hearing Officer may order the placement of a student with a disability in an IAES setting for up to 45 days at a time, if maintaining the student in their current educational placement poses a risk of harm to the student or others.

Change of Placement Rule

A disciplinary change in placement means a suspension or removal from a student's current

educational placement that is either:

- 1) For more than ten consecutive school days; or
- 2) For a period of ten consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.

School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal.

However, the District may impose a suspension or removal, which would otherwise result in a disciplinary change in placement if the CSE or manifestation team has determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances.

Special Rules Regarding the Suspension or Removal of Students with Disabilities

The District's CSE or manifestation team will conduct a manifestation determination review of the relationship between the student's disability and the behavior subject to disciplinary action whenever a decision is made to place a student in an IAES either for misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in their current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension that constitutes a disciplinary change in placement.

The District's CSE will conduct functional behavioral assessments to determine why a student engages in a particular behavior, and develop or review behavioral intervention plans whenever the District is first suspending or removing a student with a disability for more than ten school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs or controlled substances.

If subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from their current educational placement for more than ten school days in a school year is subjected to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE will review the behavioral intervention plan and its implementation to determine if modifications are necessary.

If one or more members of the CSE believe that modifications are needed, the District will convene a meeting of the CSE to modify the plan and its implementation, to the extent the Committee determines necessary.

The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of misconduct, will have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the District is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the District is deemed to have had knowledge as described, the student will be considered a student presumed to have a disability for discipline purposes.

- 1) The Superintendent, building principal or other school official imposing a suspension or removal will be responsible for determining whether the student is a student presumed to have a disability.

- 2) A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the District had knowledge the student was a student with a disability, the District either:
 - a. Conducted an individual evaluation and determined that the student is not a student with a disability;
 - b. Determined that an evaluation was not necessary and provided notice to the parents of the determination, in the manner required by applicable law and regulations;
 - c. Determined that an evaluation was necessary and the parent refused to consent to such evaluation; or
 - d. Determined through evaluation that the student was eligible for special education and the parent declined to consent to provision of special education services or revoked consent for provision of special education services.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made while the non-disabled student is subjected to a disciplinary removal, an expedited evaluation will be conducted and completed in the manner prescribed by applicable federal and New York State law and regulations. Until the expedited evaluation is completed, the non-disabled student will remain in the educational placement determined by the District, including suspension.

The District will provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in their current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement.

The procedural safeguards notice prescribed by the Commissioner will accompany the notice of disciplinary removal.

The parents of a student with disabilities subject to a suspension of five consecutive school days or less will be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.

Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five school days will be divided into a guilt phase and a penalty phase in accordance with the procedures in the Commissioner's regulations.

The removal of a student with disabilities other than a suspension or placement in an IAES will be conducted in accordance with the due process procedures applicable to the removal of non-disabled students, except that school personnel may not impose a removal for more than ten consecutive days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability.

During any period of suspension or removal, including placement in an IAES, students with disabilities will be provided with services as required by the Commissioner's regulations.

Expedited Due Process Hearings

An expedited due process hearing will be conducted in the manner specified by the Commissioner's regulations incorporated into this *Code*, if:

- 1) The District requests a hearing to obtain an order of an Impartial Hearing Officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in their current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in their current educational placement during the proceedings.
- 2) The parent requests a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including, but not limited, to any decision to place the student in an IAES.
 - a. During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs, or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student will remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the District agree otherwise.
 - b. If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student will remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.

An expedited due process hearing will be completed within 15 business days of receipt of the request for a hearing. Although the Impartial Hearing Officer may grant specific extensions, they must mail a written decision to the District and the parents within five business days after the last hearing date, and in no event later than 45 calendar days after receipt of the request for a hearing, without exceptions or extensions.

Referral to Law Enforcement and Judicial Authorities

In accordance with the provisions of IDEA and its implementing regulations:

- 1) The District may report a crime committed by a child with a disability to appropriate authorities, and the action will not constitute a change of the student's placement.
- 2) The Superintendent will ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported to the extent permitted or required by federal and/or New York State law.

TIMEOUT AND PHYSICAL RESTRAINT

The District prohibits the use of corporal punishment, aversive interventions, and seclusion. The District authorizes the limited use of timeout and physical restraint in schools to address student behaviors subject to conditions in law, regulation, and this policy.

Authorized Limited Use of Timeout and Physical Restraint

Positive, proactive, evidence-based, and research-based strategies through a multi-tiered system of supports will be used to reduce the occurrence of challenging behaviors, eliminate the need for the use of timeout and physical restraint, and improve school climate and the safety of all students.

Timeout and physical restraint may be used only when:

- a) Other less restrictive and intrusive interventions and de-escalation techniques would not prevent imminent danger of serious physical harm to the student or others;
- b) There is no known medical contraindication to its use on the student; and
- c) Staff using the interventions have been trained in its safe and appropriate application.

Timeout and physical restraints will not be used as discipline or punishment, retaliation, or as a substitute for positive, proactive intervention strategies that are designed to change, replace, modify, or eliminate a targeted behavior.

All District policies and procedures related to the authorized limited use of timeout and physical restraint will be followed.

Recordkeeping

The District will maintain documentation on the use of timeout and/or physical restraint, including timeout used in conjunction with a student's behavioral intervention plan, for each student. This documentation will include:

- a) The name and date of birth of the student;
- b) The setting and location of the incident;
- c) The name of the staff who participated in the implementation, monitoring, and supervision of the use of timeout and/or physical restraint and any other persons involved;
- d) A description of the incident including duration, and, for physical restraint, the type of restraint used;
- e) Whether the student has an individualized education program, Section 504 accommodation plan, behavioral intervention plan, or other plan developed for the student by the District;
- f) A list of all positive, proactive intervention strategies utilized prior to the use of timeout and/or physical restraint and, for students with disabilities, whether those strategies were consistent with a student's behavioral intervention plan, if applicable;
- g) The details of any injuries sustained by the student or staff during the incident and whether the student was evaluated by the school nurse or other medical personnel;
- h) The date and method of notification to the parent or person in parental relation and whether a meeting was held; and
- i) The date of the debriefing held.

Documentation of the incident will be reviewed by supervisory personnel and, as necessary, the school nurse or other medical personnel.

Documentation of each incident will be maintained by the school and made available for review by the New York State Education Department upon request.

Reporting

The District will submit an annual report on the use of physical restraint and timeout and substantiated and unsubstantiated allegations of use of corporal punishment, mechanical restraint, and other aversive interventions, prone physical restraint, and seclusion to the New York State Education Department, on a form and at a time prescribed by the Commissioner of Education in accordance with law and regulation. Additionally, the District will report this data for students for whom they are the district of residence and who are otherwise not reported.

STUDENT SEARCHES AND QUESTIONING OF STUDENTS

The Board is committed to providing an atmosphere for a positive, safe, and orderly school environment.

In all instances, any search of students or their property must be justified at its inception; there must be reasonable grounds for suspecting the search will produce evidence that the student has violated or is violating the law or the District *Code of Conduct*. The search must also be reasonably related in scope to the circumstances that justified the search in the first place.

The District will consider these factors in determining whether a search is justified at its inception:

- 1) Nature and reliability of the information received regarding the proscribed activity: An authorized school official may search a student or the student's belongings based upon information received from a reliable informant. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate. Other individuals will be considered reliable informants if they have previously supplied information that was accurate and verified, they make an admission against their own interest, provide the same information that is received independently from other sources, or appear to be credible and the information they are communicating relates to an immediate threat to safety.
- 2) The existence of observable phenomena, such as the direct observation of use or the physical symptoms of using or being under the influence of illegal controlled substances or alcohol such as slurred speech, disorientation, a pattern or abnormal conduct, or erratic behavior.
- 3) Additional factors to be considered in determining whether reasonable suspicion exists to search a student include:
 - a. The age of the student;
 - b. The student's record and past history;
 - c. The predominance and seriousness of the problem in the school where the search is directed; and
 - d. The urgency to conduct the search without delay. If reasonable suspicion exists to believe that a student possesses a weapon, it is permissible for a District employee to search that student.

The measures adopted in searching a student will be considered reasonable in scope when they are reasonably related to the objectives of the search and not excessively intrusive in light of the age and sex of the student and the nature of the infraction.

Before searching a student or the student's belongings, the authorized school official will attempt to get the student to admit that they possess physical evidence that they violated the law or the *Code of Conduct*, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought. Whenever practicable, searches will be conducted in the privacy of administrative offices, and students will be present when their possessions are being searched.

Student Lockers, Desks, and other School Storage Places

Lockers and desks are the property of the District and are provided for use by students; administrators have the right to search lockers and desks. A student may have exclusive use of these storage places as far as other students are concerned, but they do not have such exclusivity over the locker as against the school authorities. Officials who wish to search a closed item (e.g., backpack, purse etc.) within a locker or desk must have reasonable suspicion to search that item.

Questioning of Students by School Officials

School officials have the right to question students regarding any violations of the *Code of Conduct* or illegal activity. In general, administration may conduct investigations concerning reports of misconduct which may include, but are not limited to, questioning students, staff, parents/guardians, or other individuals as may be appropriate and, when necessary, determining disciplinary action in accordance with applicable due process rights.

Should the questioning of students by school officials focus on the actions of one particular student, the student will be questioned, if possible, in private by the appropriate school administrator. Although, parent/guardian consent for questioning is not required, the student's parent/guardian may be contacted. The degree, of parental/guardian, if any, involvement will vary depending upon the nature and the reason for questioning, and the necessity for further action which may occur as a result.

The questioning of students by school officials does not preclude subsequent questioning/interrogations by police authorities as otherwise permitted by law. Similarly, the questioning of students by school officials does not negate the right/responsibility of school officials to contact appropriate law enforcement agencies, as may be necessary, with regard to such statements given by students to school officials.

School officials acting alone and on their own authority, without the involvement of or on behalf of law enforcement officials are not required to give "Miranda warnings" (i.e., advising a person, prior to any custodial interrogations as defined in law, of the right to remain silent; that any statement made by the individual may be used as evidence against him/her; and that the individual has the right to the presence of an attorney, either retained or appointed) prior to the questioning of students.

Law Enforcement Officials

The District will maintain a cooperative effort with law enforcement agencies. Law enforcement officials may be summoned to conduct an investigation of alleged criminal conduct on school premises or during a school-sponsored activity, or to maintain the educational environment. They may also be summoned to maintain or restore order when their presence is necessary to prevent injury to persons or property. Administrators have the responsibility and the authority to determine when the assistance of law enforcement officers is necessary.

Interrogation of Students by Law Enforcement Officials

Generally, law enforcement officials may only interview students on school premises without the permission of the parent/guardian in situations where a warrant has been issued for the student's arrest (or removal) or regarding a crime committed on school property or at a school function. In all other situations, if law enforcement officials wish to speak to a student without a warrant, they should directly

contact the student's parent/guardians.

When law enforcement officials wish to question a student on school property or at a school function, administration will attempt to notify the student's parent/guardian.

If possible, questioning of a student by police should take place in private and outside the presence of other students, but in the presence of the building principal or designee.

School Resource Officers (SROs)

The District may utilize School Resource Officers (SROs). Any searches of students and/or their property that are initiated and conducted by District staff will meet the "reasonable suspicion" standard for searches as described above. In the event that a search of a student and/or their property is initiated or conducted by an SRO acting in their capacity as a law enforcement officer, that search must be justified by probable cause.

Child Protective Services Investigations

Occasionally, Child Protective Services (CPS) may wish to conduct interviews of students on school property. These interviews generally pertain to allegations of suspected child abuse or neglect. The Board encourages cooperation with CPS with respect to access to records and access to any child named as a victim, any of the victim's siblings, or any other child residing in the same home as the named victim, in accordance with applicable law.

VISITORS TO THE SCHOOLS

The Board encourages parents and other District citizens to visit the District's schools and classrooms to observe the work of students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The building principal is responsible for all persons in the building and on the grounds. For these reasons, the following expectations apply to visitors to the schools:

All visitors must show proper identification before entering the building. Visitors must sign in at the desk in the main lobby. Visitors to this school must have a legitimate reason for visiting. Students may not bring friends or relatives to school for visiting purposes. All visitors must have an authorized visitor's pass while in the building and must return the pass to the desk in the main lobby when leaving. No parent is permitted to visit a classroom without the permission of a building administrator. Any High School student who does not bring their school identification badge will wear a visitor's pass throughout the day.

Alumni may be allowed in a school building after the end of the school day.

All visitors are expected to abide by the rules for public conduct on school property contained in this Code of Conduct.

PUBLIC CONDUCT ON SCHOOL PROPERTY

The District is committed to providing an orderly, respectful environment that is conducive to learning. To create and maintain this kind of environment, it is necessary to regulate public conduct on school property and at school functions. For purposes of this section of the Code, "public" means all persons when on school property or attending a school function including students, teachers, District personnel, volunteers, vendors, parents and family members, visitors, spectators and contractors. This Code also applies to anyone using district facilities at any time, for any purpose.

The restrictions on public conduct on school property and at school functions contained in this Code are not intended to limit freedom of speech or peaceful assembly. The District recognizes that free inquiry and free expression are indispensable to the objectives of the District. The purpose of this Code is to maintain public order and prevent abuse of the rights of others.

All persons on school property or attending a school function will conduct themselves in a respectful and orderly manner. In addition, all persons on school property or attending a school function are expected to be properly dressed for the purposes for which they are on school property.

Prohibited Conduct (including but not limited to the following)

No person, either alone or with others, will:

- 1) Intentionally injure any person or threaten to do so.
- 2) Intentionally damage or destroy District property or the personal property of a student, teacher, administrator, other District employee or any person lawfully on District property.
- 3) Disrupt the orderly conduct of classes, programs, activities, or other work sites/internship.
- 4) Distribute or wear materials on school property or at school functions that are obscene, advocate illegal action, appear libelous, obstruct the rights of others, or are disruptive to the school program or workplace.

- 9) Possess, consume, sell, attempt to sell, distribute or exchange or attempt to distribute or exchange alcoholic beverages, illegal drugs/substances and controlled substances, including drug paraphernalia, or be under the influence on District property or at a District or school function.

The definition of illegal drugs includes controlled substances. While cannabis (marijuana) has been legalized by New York State for adult use under certain circumstances, it is illegal for anyone under the age of 21 to purchase, possess, or use cannabis. Regardless of age, the sale, purchase, possession, and/or use of cannabis is prohibited on school grounds under state and federal laws and District policy. District staff are further prohibited from performing their employment duties while impaired by cannabis.

- 10) Use tobacco and tobacco products on school grounds or within 100 feet of the entrances, exits, or outdoor areas of any public or private elementary or secondary schools. For purposes of this *Code of Conduct*, “school grounds” means any instructional building, structure, and surrounding outdoor grounds, including entrances or exits, contained within the District’s legally defined property boundaries as registered in the County Clerk’s Office; as well as all District vehicles.

- 11) Use e-cigarettes, vape pens and other similar product, including those containing nicotine except for current FDA-approved smoking cessations products.
- 12) Possess, display, use or threaten to use any weapon(s), in or on District property or at a District or school function, except in the case of law enforcement officers or as specifically authorized by the District.
- 13) Loiter on District property.

Penalties

Visitors

Visitors are subject to immediate ejection and, as the facts may warrant, precluded from returning to school property or functions. The District may involve law enforcement officials for assistance. The length of the suspension will be determined by the severity of the violation and the violator will receive written notice of the determination.

Teachers and Other Staff

Teachers and staff may be disciplined in accordance with this *Code of Conduct*, applicable law or collective bargaining agreements and due process requirements.

Contractors and Vendors

The District will take appropriate action, consistent with the terms of any applicable contract, to ensure the offense is remedied and will not recur. The failure of a contractor or vendor to abide by the terms of this *Code of Conduct* may affect the renewal of existing agreements or the awarding of future contracts.

Enforcement

The Superintendent is responsible for enforcing the conduct required by this Code. The Superintendent may designate other District staff that are authorized to take action consistent with the Code.

When the Superintendent or designee sees an individual engaged in prohibited conduct, which in their judgment does not pose any immediate threat of injury to persons or property, the designated school official will tell the individual that the conduct is prohibited and attempt to persuade the individual to stop. If the person refuses to stop engaging in the prohibited conduct, or if the person's conduct poses an immediate threat of injury to persons or property, the designated school official will have the individual removed immediately from school property or the school function. If necessary, local law enforcement authorities will be contacted to assist in removing the person.

The District will initiate disciplinary action against any student or staff member, as appropriate, consistent with the "Penalties" section. In addition, the District reserves its right to pursue a civil or

criminal legal action against any person violating the Code.

DISSEMINATION AND REVIEW

Dissemination of Code of Conduct

The Board will work to ensure that the community is aware of this *Code of Conduct* by:

- 1) Providing a public hearing prior to its approval of the *Code of Conduct*.
- 2) Providing copies of a summary of an age appropriate, written in plain language, summary of the *Code of Conduct*, including any updates of the *Code of Conduct* to all students of each of the District's schools at a general assembly at the beginning of each year.

- 5) Providing all new employees with a copy of the current *Code of Conduct* when they are first hired.
- 6) Making copies of the *Code* available for review by students, parents and other community members.

The Board will sponsor an in-service education program for all District staff members to ensure the effective implementation of the *Code of Conduct*, including, but not limited to, guidelines on promoting a safe and supportive school climate while discouraging, among other things, harassment, bullying, and discrimination against students by students or District employees, and including safe and supportive school climate concepts in the curriculum and classroom management. The Superintendent will solicit the recommendations of the District's staff, particularly teachers and administrators, regarding the service programs pertaining to the management and discipline of students.

The Board will review this *Code of Conduct* every year and update it as necessary. In conducting the review, the Board will consider how effective the Code's provisions have been and whether the Code has been applied fairly and consistently.

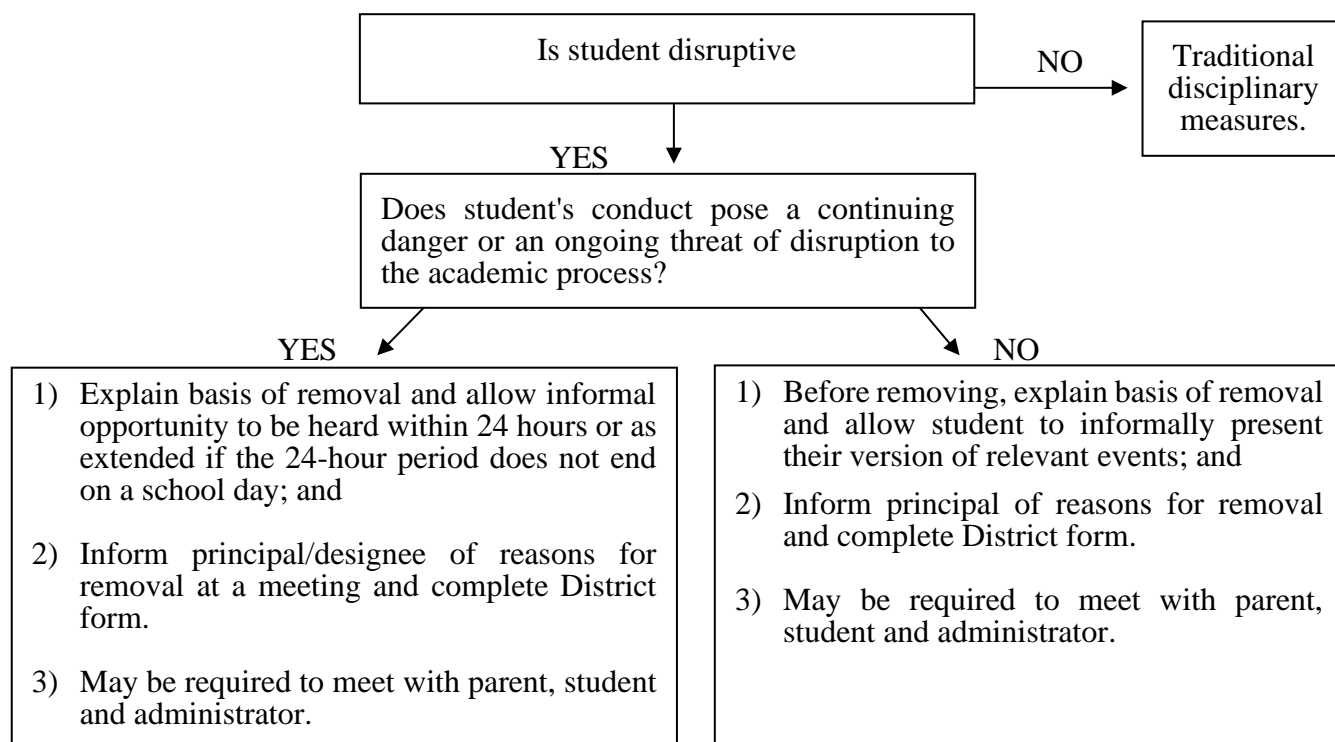

The Board may appoint an advisory committee to assist in reviewing the Code and the District's response to *Code of Conduct* violations. The committee will be made up of representatives of student, teacher, administrator, and parent organizations, school safety personnel and other school personnel.

Before approving any revisions to the Code, the Board will hold at least one public hearing at which school personnel, parents, students and any other interested party may participate.
