## **Missouri Online Summer Institute Provided by Grandview R2**

Parents and Guardians:

This year, Drexel R-IV School District will be using the Missouri Online Summer Institute (MOSI) Summer School Program provided by the Grandview R-II School District as our form of summer school. This online program is free for all enrolled students. Students can sign up for a multitude of classes that will all be taken online during the Summer Break. Students can choose from standard and career education courses to earn credits over the summer, as well as the credit recovery classes to help make up classes they may have failed during the school year. While the MOSI program allows students to sign up for 2 credits worth of classes, **Drexel will only recognize 1 credit per student for any standard, career education, or credit recovery courses.**

In order to enroll:

- 1) Parents/Guardians must enroll their students through Grandview's MOSI portal, which can be found at [www.mosummerschool.org](http://www.mosummerschool.org)
- 2) Parents/Guardians will complete the enrollment procedure for the virtual summer school (as a reminder, if a student is enrolled into MOSI, they cannot be enrolled into any other program.
  - a) If the student is taking credit recovery courses, they will need to complete a credit recovery form and turn it in to Mr. Stackhouse. The form can be found at [www.mosummerschool.org](http://www.mosummerschool.org)
- 3) Once enrollment is complete, the student will have from the time the class opens till mid to late July to complete all work. Once all work is completed, Grandview will send all records to Drexel to be put into the system.

If you have any questions about the MOSI program or enrollment, please contact Mr. Stackhouse at (816) 619-2287 or by email at [jstackhouse@drexelbobcats.net](mailto:jstackhouse@drexelbobcats.net). Thank you for all you do!

Thank you for showing an interest in our Missouri Online Summer Institute (MOSI). The web application for summer of 2019 will be available around the middle of March on the Summer School Website. The start date is around the middle of May and the very last day to turn in any work is around the middle of July. The last day to sign up to take a course with us is around the beginning of July. Students can only sign up for four semesters or two full credits. All core classes are two semesters (just like during the school year). We do offer Credit Recovery courses. For a student to be enrolled in a Credit Recovery Course the school counselor must fill out the MOSI Course Approval Form and fax it to Grandview R2 High School before they will be allowed to start the course. This can be found on the Summer School page of our website [www.mosummerschool.org](http://www.mosummerschool.org).

The student can complete the work anywhere that there is an internet connection. There are around 90 lessons per semester. What we consider a lesson is all the readings, assignments and tests. When students start the course the very first thing that they will have to do is to complete an orientation. In the orientation section the student will be given a course syllabus that has the due dates on it. This is just to help them stay on track to finish the course by the end date in July. Students are able to go through the course to a point on how fast or slow they would like to. They just have to complete any and all work by the end date in July at 11:01 PM. This is the time that the system shuts them out of the course and they will not be allowed to submit any more work/tests. Any work that is not completed will be graded with a 0% and factored into their overall grade. I have seen some students complete a semester course in 2-3 weeks. They do this by working on the course off and on all day to get it done. Some of them do this so they can have the rest of the summer free. Then again, most students take the full time to complete the work. They do not have to be on the course during any certain time to interact with the teacher.

The teachers along with their mentors are available anytime by e-mail. They also have the option to call and ask their mentors questions Monday thru Thursday 8:00 AM to 2:00 PM. The tests are not proctored by anyone. That is why we do not even offer the EOC courses (Biology, Civics, English I and Algebra II) during the summer.

Most of the courses are taught by our teachers. The company that we are partnered with provides Missouri certified teachers for the other courses.

MOSI is a FREE virtual summer school program that is open to all students in grades 7-12 in the State of Missouri (home schooled, private, or public) that offers more than 90 courses for original credit and credit recovery. The only thing is that a student may not be enrolled in another course with their school and take courses with us over the summer.

According to Section 167.227 RSMO, "No pupil shall attend summer school courses in more than one district during any one summer." Students who enroll in MOSI may not enroll in and attend summer school course at another district, and students who enroll in another summer school program are ineligible to enroll in MOSI. If, you have any questions please feel free to contact Elaine Schlett at 636-944-3390 Option 4 or by email at [schlette@grandviewr2.org](mailto:schlette@grandviewr2.org)
