

Dear Bellbrook Junior High Parents / Guardians, Coaches, and Athletes:

Premier Sports Medicine is excited to offer your child/athlete the opportunity to take an **ImPACT Baseline Concussion Test** in the convenience of our office. This computer test runs 25 minutes in length. The cost is \$25 cash/credit/check only. These are not billable to your insurance. Test reports will be available to our physicians in our system for any future need your son/daughter may have during the academic year.

ImPACT is a “sophisticated, research-based computer test developed to help clinicians evaluate an individual’s or athlete’s recovery following concussion.” The test measures verbal memory, visual memory, visual-motor speed, reaction time, impulse control, and symptoms. Our organization purchases Baseline Tests online in advance, which is why there is a fee for this service. Our sports medicine physicians are Credentialed ImPACT Consultants who are authorized to administer and interpret ImPACT Tests when a child suffers a concussion.

If your son/daughter suffers a head injury during the season, we recommend scheduling an appointment with one of our physicians, where a neuro-cognitive evaluation can be completed, as well as a Post-Injury ImPACT exam. By having the Baseline scores readily available in our office, our physicians can make accurate comparisons to help diagnose and manage the concussion.

If interested in scheduling a Baseline ImPACT test, please perform the following:

1. Call PSM at 937-312-1661, to schedule a Baseline ImPACT test with Kim McManus, ATC.
2. Complete the attached registration sheet and bring with you to the test, with a parent.
3. Bring \$25 cash/credit or check made payable to Premier Sports Medicine.

A parent or guardian MUST be present on the day of service with your child. Test results will be saved in the database, and a hard copy will go home with your child for your records. Interpretation will NOT be provided because this is a pre-season Baseline. If you are interested in discussing the test further, an appointment can be made with one of our physicians. If your child suffers a suspected concussion this year, please call 312-1661 to make an appointment with a physician. You do not need to bring the Baseline test to the appointment.

For more information on ImPACT, visit www.impacttest.com.

Any questions can be directed to Kim McManus, Athletic Trainer/Physician Extender with Dr Convery & Dr Rhodes at 937-312-1661, ext 108. Email: kmcmanus@premierhealth.org.

We look forward to meeting you and your child and providing this service.

Sincerely,

Kim McManus, AT, ATC
