

2025
Summer
Academy
MEQUON-THIENSVILLE RECREATION DEPARTMENT

Taught by our own MTSD educators!

As you plan activities for your children this summer be sure to keep in mind the academic and enrichment courses that are offered through the Mequon-Thiensville Recreation Department. Summer Academy is designed for students entering 4K-9th grade and is taught by our MTSD educators.

SCHEDULE

There will be two sessions of Summer Academy. Session 1 will include ONE full week of activities, Monday-Friday. Session 2 is TWO weeks, Monday-Thursday.

4K-5th Grade Registration:

In-person classes are in block format. When you register for a block you are registering for a 2.5-hour block of time with two classes (except for 4K Jumpstart program) depending on the content and grade level. Teachers will provide students a 10-minute outdoor break during that time to provide some movement, please dress students appropriately.

6th-9th Grade Registration:

In-person classes are in a single-class format. When you register for a class you are registering for one class depending on the content and grade level.

We also offer lunch supervision in the building for grades K5-9 only. If you register for this, students must bring their own lunch. Drop-off time for all courses is no earlier than 5 minutes before the start of the course.

SESSION 1: June 23–27 ONE full week, Monday-Friday

SESSION 2: July 21–31 TWO weeks, Monday-Thursday

LOCATION

Classes for 4K-5th grade will be held at Range Line Community Center, located at 11040 N. Range Line Rd., Mequon

Classes for 6th-9th grade will be held at Lake Shore Middle School 11036 N. Range Line Rd., Mequon

LUNCH

No charge for lunch sessions for those students who stay for classes all day. **Students must register if planning to stay for lunch in order to plan for supervision.** Lunch is not provided; students should bring lunch from home.

PLAYGROUND AND OUTDOOR GAMES

Supervised playground activities are available for students who require morning drop off or additional supervised time in the afternoon.

FINANCIAL AID

Financial Aid is available for students who qualify for the Free and Reduced Lunch Program. For financial aid applicants, please register in-person at the Mequon-Thiensville Recreation Department located at Range Line Community Center located at 11040 N. Range Line Rd., Mequon.

REGISTRATION

Information and registration is available online and in-person at the Mequon-Thiensville Recreation Department (Range Line Center, 11040 N. Range Line Rd., Mequon). Register online at <https://tinyurl.com/MTRecSummer>

REGISTRATION DEADLINE:
April 15, 2025

PRICING

SESSION 1 (1-week session, 5 total days)

AM PLAYGROUND:

\$45 Resident/ \$55 Non-Resident

1-CLASS BLOCK:

\$76 Resident/\$88 Non-resident

2-CLASS BLOCK:

\$141 Resident/\$165 Non-Resident

GAMES & PLAYGROUND:

\$60 Resident / \$70 Non-Resident

SESSION 2 (2-week session, 8 total days)

AM PLAYGROUND:

\$65 Resident/ \$75 Non-Resident

1-CLASS BLOCK:

\$113 Resident/\$128 Non-resident

2-CLASS BLOCK:

\$215 Resident/\$245 Non-Resident

GAMES & PLAYGROUND:

\$90 Resident / \$100 Non-Resident

VIRTUAL

ALEKS: \$110 per person

25% DISCOUNT FOR SIBLING REGISTRATIONS

Full Schedule #1

4K-5th grade: (Range Line Community Center)

In-person classes are in block format. When you register for a block you are registering for a 2.5-hour block of time with two classes (except for the 4K Jumpstart Block program) depending on the content and grade level. Teachers will provide students a 10-minute outdoor break during that time to provide some movement, please dress students appropriately. All classes will be at Range Line Community Center.

6th-9th grade: (Lake Shore Middle School)

In-person classes are in a single class format except for Digital Photography and Photo Editing, which is a block class. When you register for a class you are registering for one class depending on the content and grade level. All classes for 6-9 will be at Lake Shore Middle School except for Creative Drama class (Grade 5-9) which will be held in the Range Line Community Center Conference Room.

8-9 a.m.	Morning Playground Range Line Gym	#315009
9-11:30 a.m. AM Only Room: 100	4K Jumpstart <i>Block Class AM with 10-minute break included</i> The 4K summer program will provide your child with an opportunity to grow socially, emotionally, and academically by learning skills such as classroom etiquette, pre-literacy skills, and math concepts. Children will engage in large and small group hands-on activities designed with the young learner in mind! Instructor: Beth Hollander, 4K teacher - Wilson Elementary School	#315010
	Individual Aide for a Student We do offer para/aide support for Summer Academy, however, it is \$18 per hour which will be added to your course registration fee for the para assignment. Please email Beula Sundararajan at bsundararajan@mtsd.k12.wi.us with with questions and requests. We will reach out to our district paraprofessionals and check their availability for summer and confirm with you if we can process your request.	#315042

8-9 a.m.	Morning Playground Range Line Gym	#315009
9-11:30 a.m. Room: 107	GRADE 5K - Math FUNdamentals & Academic Games <i>Block Class AM with 10-minute break included</i> Math FUNdamentals: This course will offer students the ability to strengthen skills and gain extra practice in mathematics utilizing a workshop approach. This class will focus on building skills in numbers and operations, algebraic thinking, geometry, data, and measurement Academic Games: Students will build on their academic skills (reading, writing, and math), aligned with age-level readiness, through different activities, games, and centers. Instructor: Christina Rauch, 5K Teacher - Wilson Elementary	#315011
9-11:30 a.m. Room: 108	GRADE 1- Math FUNdamentals & Zones of Regulation <i>Block Class AM with 10-minute break included</i> Math FUNdamentals: In this course, students will preview the mathematical skills of first grade. They will complete hands-on activities utilizing manipulatives to increase their conceptual understanding of addition and subtraction strategies, geometric shapes, and measuring lengths. Students will practice critical and flexible thinking as they engage in everyday mathematical concepts. Zones of Regulation: In this course, students will explore the Zones of Regulation. They will learn to recognize their body's signals, identify states of emotion, and develop coping strategies to regulate their behavior. Students will create a "Regulation Toolbox" and explore mindfulness. Instructor: Kaitlin Koch, Teacher - Lake Shore Middle School	#315013
11:30 a.m.-12 p.m.	Lunch Free lunch supervision is offered for (Grades 5K-9 only) students who sign up for both AM and PM sessions. Students need to sign up for lunch sessions. Students will bring their own lunch from home.	#315041
12-2:30 p.m. Room: 107	GRADE 5K - Reading Workshop & A Walk in Disney! <i>Block Class PM with 10-minute break included</i> Reading Workshop: This course is for students who are looking for an extended learning opportunity to strengthen their reading and writing through practice utilizing the priority standards identified for each grade level. This class will encourage and support young readers as they work on their literary abilities. A Walk in Disney!: Students in this class will participate in various crafts and activities centered around Disney. Students will spend time learning, creating, and engaging in activities involving Disney media and themes. (i.e. For Finding Nemo, students may create a fish craft). Instructor: Christina Rauch, 5K Teacher - Wilson Elementary	#315012

12-2:30 p.m.
Room: 108

GRADE 1 - Reading Workshop & Written and Illustrated by YOU #315014

Block Class PM with 10-minute break included

Reading Workshop: In this course, students will strengthen their reading abilities as they engage in daily activities utilizing the priority standards of first grade. This class will encourage and support young readers as they further develop their foundational reading skills.

Written and Illustrated by YOU! In this course, students will develop their writing skills to prepare for first grade. Students will gain experience in brainstorming, organizing their thoughts, and publishing their work to become an author.

Instructor: Kaitlin Koch, Teacher - Lake Shore Middle School

2:30-4:00 p.m.

Outdoor Games & Playground (K-1) #315015

Students will have the opportunity to play structured games facilitated by an adult and have free choice activity/play time.

Supervisor: Julie Hart, Recess Mentor - Wilson Elementary School

Individual Aide for a Student #315042

We do offer para/aide support for Summer Academy, however, it is \$18 per hour which will be added to your course registration fee for the para assignment. Please email Beula Sundararajan at bsundararajan@mtsd.k12.wi.us with with questions and requests. We will reach out to our district paraprofessionals and check their availability for summer and confirm with you if we can process your request.

8-9 a.m.	Morning Playground Range Line Gym	#315009
9-11:30 a.m. Room: 109	GRADE 2-3 - Math FUNdamentals & Story Problem Solvers Block Class AM with 10-minute break included Math FUNdamentals will offer students the ability to strengthen skills and gain extra practice in mathematics utilizing workshop approach. This class will focus on building skills in numbers and operations, algebraic thinking, geometry, data and measurement. Story Problem Solvers is for those students who want or need to strengthen their skills in solving story problems and explaining their thinking/reasonableness in math. This time will be spent working on solving different story structures problems through a variety of activities while helping students to visually and conceptually understand the operations being used. We will show how the math they learn throughout the year applies in a real life setting. Instructor: Sidney Sieczkowski, Teacher - Donges Bay Elementary School	#315016
9-11:30 a.m. Room: 201	GRADE 2-3 - Learning to Code with Ozobots Block Class AM with 10-minute break included Students will learn to program and interact with Ozobots. They will be introduced to two ways to code: On paper and on Chromebooks using Ozoblockly. We will explore solving real world problems and explore possible career choices that will require coding and programming in the future. Students will walk away with skills of thinking creatively, reasoning systematically, and working collaboratively. Instructor: JoAnn Hausknecht, RDL Specialist - Oriole Lane Elementary School	#315017
9-11:30 a.m. Room: 110	GRADE 2-3 - I am a Scientist & Written and Illustrated by YOU! Block Class AM with 10-minute break included I am a Scientist: Come have some fun with simple experiments that the students can do at home and school! Students will learn how to do the experiment during the teaching time, explain why it happens/works, and then during the work time, they can do the experiment and draw pictures to show what happened. Written and Illustrated by YOU!: Become an author and illustrator! This class will offer students the ability to continue practice in writing. Students will gain experience in brainstorming, organizing their thoughts, and publishing their work that will enhance their ability to be an author for informational, opinion, and narrative writing. Instructor: Ashley Markowiak, Teacher - Donges Bay Elementary School	#315019
9-11:30 a.m. Room: Conference Room (Limit 25 students only)	GRADE 2-4 - Creative Drama: Acting With a Scene Partner Block Class AM with 10-minute break included Elsa and Anna! Bluey and Bingo! Shrek and Donkey! What do these three pairings have in common? They were all excellent scene partners! In this beginner's theatre course, your student will learn strategies for great acting with a partner, including: dialogue work, body language for the stage, as well pace and timing. We will be taking scenes from movies and TV shows as well as plays! Through the course of the class, we will read through multiple scenes together, polish them, and perform them with a partner at the end of the class! There will be a SHOWCASE all parents and families are invited to attend the last 30 minutes on the last day. Additionally, depending on student availability, students will also have the opportunity to participate in a staged reading in the last hour to an hour and a half of the older students' class, at 2 p.m. that same day. Instructor: Jamie Love, Drama Director, M-T Recreation Department	#315020

11:30 a.m.-12 p.m.	Lunch #315041 Free lunch supervision is offered for (Grades 5K-9 only) students who sign up for both AM and PM sessions. Students need to sign up for lunch sessions. Students will bring their own lunch from home.
12-2:30 p.m. Room: 109	GRADE 2-3 - Written and Illustrated by YOU! & Kids' Bop! #315018 Block Class PM with 10-minute break included Written and Illustrated by YOU!: Become be an author and illustrator! This class will offer students the ability to continue practice in writing. Students will gain experience in brainstorming, organizing their thoughts, and publishing their work that will enhance their ability to be an author for informational, opinion, and narrative writing. Kids' Bop!: This class is an interactive class with dance and singing to popular dance tunes. Students will learn about Taylor Swift music videos and other famous artists. Instructor: Sidney Sieczkowski, Teacher - Donges Bay Elementary
12-2:30 p.m. Room: 110	GRADE 2-3 - Life as a Vet & Reading Workshop #315021 Block Class PM with 10-minute break included Life as a Vet: Students will explore the job of a veterinarian. From pets to zoos to farms, all the animals need to be well taken care of. In this course, students will explore topics such as animal body language, a day in the life of zoo animals, animal hygiene and the role a veterinarian plays in all of those. Reading Workshop: This course is for students who are looking for an extended learning opportunity to strengthen their reading and writing through practice utilizing the priority standards identified for each grade level. This class will encourage and support young readers as they work on their literary abilities. Instructor: Ashley Markowiak, Teacher - Donges Bay Elementary School
2:30-4:00 p.m.	Outdoor Games & Playground (2-3) #315022 Students will have the opportunity to play structured games facilitated by an adult and have free choice activity/play time. Supervisor: Ashley Markowiak, Teacher - Donges Bay Elementary School
	Individual Aide for a Student #315042 We do offer para/aide support for Summer Academy, however, it is \$18 per hour which will be added to your course registration fee for the para assignment. Please email Beula Sundararajan at bsundararajan@mtsd.k12.wi.us with with questions and requests. We will reach out to our district paraprofessionals and check their availability for summer and confirm with you if we can process your request.

8-9 a.m.	Morning Playground Range Line Gym	#315009
9-11:30 a.m. Room: Computer Lab	GRADE 4-5 - Reading Workshop & Written and Illustrated by YOU! <i>Block Class AM with 10-minute break included</i> <p>Reading Workshop: This course is for students who are looking for an extended learning opportunity to strengthen their reading and writing through practice utilizing the priority standards identified for each grade level. This class will encourage and support young readers as they work on their literary abilities.</p> <p>Written and Illustrated by YOU!: Come be an author and illustrator! This class will offer students the ability to continue practice in writing. Grades 6-9 in-person classes are in a single-class format (unless otherwise noted). When you register for a class you are registering for one class depending on the content and grade level.

8-9 a.m.	Morning Playground Lake Shore Middle School Gym	#315009
9 - 11:30 a.m. Room: 112	GRADE 6-9 - Digital Photography and Photo Editing Block Class PM with 10-minute break included Digital Photography and Photo Editing: Photo editors and photographers of all abilities wanted! In this hands-on five-day course, students in grades 6-9 will learn the basics of digital photography and photo editing. Through interactive lessons and fun projects, students will explore composition, lighting, and framing to create stunning images. Using Pixlr, a beginner-friendly editing tool, they'll learn how to enhance their photos with color adjustments, filters, and other creative techniques. By the end of the week, students will host a photo gallery showcase of their edited images and the skills they used to capture and polish their own unique photos! Instructor: Barb Duenk, RDL Specialist & Yearbook Advisor - Lake Shore Middle School	#315032
9 - 10:10 a.m. Room: 110	GRADE 7-9 - Advanced Algebra Ready to take your algebra skills to the next level? Then you are ready for Advanced Algebra. This class dives deep into equations, functions, polynomials, and systems! You'll sharpen your problem-solving skills. Get ready for hands-on activities, challenges, and some friendly competition as we tackle some fun algebraic puzzles, games, and Algebra escape rooms! Instructor: Sheila Jentsch, Math Teacher - Steffen/Lake Shore Middle Schools	#315030
9 - 10:10 a.m. Room: 115	GRADE 6-9 - Learning to Sew Learning to Sew is a basic sewing class for all students. If you are a beginner or you want to advance to making your own clothes, this class will teach you skills that you need to learn basic sewing techniques using a sewing machine Instructor: Lori Pedrick, Homestead High School	#315035
10:20 - 11:30 a.m. Room: 110	GRADE 8-9 - Geometry Welcome to Summer Geometry! This hands-on math adventure is designed for students who want to dive into the world of shapes, angles, transformations, and problem-solving. This class is designed to give students a solid understanding of key geometric concepts in a fun and engaging way. Whether you're looking to get ahead or reinforce your skills, this course will explore the essentials of geometry with real-world applications, games, creating geometric art, interactive activities, and creative problem-solving. Instructor: Sheila Jentsch, Math Teacher - Steffen/Lake Shore Middle Schools	#315031
10:20 - 11:30 a.m. Room: 115	GRADE 6-9 - Calling All Chefs! Let's have some fun in the kitchen! Students will have an opportunity to learn cooking and baking skills that they might not have explored before. Students will learn to follow recipes and practice working with others in the kitchen. Instructor: Lori Pedrick, Homestead High School	#315036
11:30 a.m.-12 p.m.	Lunch Free lunch supervision is offered for (Grades 5K-9 only) students who sign up for both AM and PM sessions. Students need to sign up for lunch sessions. Students will bring their own lunch from home	#315041

Grades 6-9 in-person classes are in a single-class format (unless otherwise noted). When you register for a class you are registering for one class depending on the content and grade level.

12-2:30 p.m. Room: Conference Room (Limit 25 students only)	GRADE 6-9 - Creative Drama: Young Playwright's Workshop #315027 Block Class AM with 10-minute break included <p>Attention all writers and actors alike! Have a brilliant idea that you'd like to see onstage? Have you always been interested in playwriting but don't know where to start? This is the class for you.</p> <p>Through the course of this class, students will learn the basic elements of a play, brainstorm and give feedback to one another, and then eventually have their work produced in a staged reading at the end of the class.</p> <p>There will be a SHOWCASE all parents and families are invited to attend the last hour to hour and a half on the last day where they will present the plays they've written.</p> <p>Instructor: Jamie Love, Drama Director: M-T Rec. Department</p>
12 - 1:10 p.m. Room: 110	GRADE 6-7 - Math in the Middle #315033 <p>Get ready for some fun, creativity, and, of course, math in the Math in the Middle Class. This isn't your ordinary math class—it's a math adventure where you'll explore challenges, solve puzzles, dive into real-world problems, create some math art, and play math games. From geometry and algebra to fractions and decimals, you'll gain skills that will help you be ready for your math class in the Fall.</p> <p>Instructor: Sheila Jentsch, Math Teacher, Steffen & Lake Shore Middle Schools</p>
12 - 1:10 p.m. Room: 114	GRADE 6-9 - Written Expressions and Creative Writing #315037 <p>Written Expressions: Students will learn the art of calligraphy and penmanship. Calligraphy is a visual art related to writing. It is the design and execution of lettering with a pen, ink brush, or other writing instrument. This class is taught by a certified calligraphy instructor.</p> <p>Creative Writing: Come let your creativity shine! This class will offer students the opportunity to practice and refine their creative writing skills at a middle school level. Students will focus on brainstorming, developing engaging plot elements, utilizing descriptive details, editing and publishing their very own works. This class will allow students to explore their creative side while simultaneously building confidence and skills required for successful middle school writing in English Language Arts.</p> <p>Instructor: Heather Kasten, Teacher- Lake Shore Middle School</p>
1:20 - 2:30 p.m. Room: 110	GRADE 7-9 - Algebra #315034 <p>Jump into some Algebra fun! Where math isn't just numbers—it's solving mysteries in math escape rooms to creating math-inspired art. This class makes learning fun and interactive. You'll tackle everything from equations and graphing to quadratic formulas all while building a strong foundation in algebra. Whether you're looking to catch up, get ahead, or just want to have fun with math, this class will provide a fun way to explore Algebra.</p> <p>Instructor: Sheila Jentsch, Math Teacher - Steffen/Lake Shore Middle Schools</p>
1:20 - 2:30 p.m. Room: 114	GRADE 6-7 - Getting Ready for Middle School #315038 <p>This course will provide incoming and current middle school students with the opportunity to build and refine the skills they need for success in the middle school level. They will work on organization, time management, study skills, and note-taking. Students will work on academic success through critical thinking and questioning skills. This course will highly benefit incoming 6th graders with middle school skills.</p> <p>Instructor: Heather Kasten, Teacher - Lake Shore Middle School</p>

Grades 6-9 in-person classes are in a single-class format (unless otherwise noted). When you register for a class you are registering for one class depending on the content and grade level.

2:30-4:00 p.m.

Outdoor Games & Playground (6-9)

#315039

Students will have the opportunity to play structured games facilitated by an adult and have free choice activity/play time.

Supervisor: Julie Hart, Recess Mentor - Wilson Elementary School

Individual Aide for a Student

#315042

We do offer para/aide support for Summer Academy, however, it is \$18 per hour which will be added to your course registration fee for the para assignment. Please email Beula Sundararajan at bsundararajan@mtsd.k12.wi.us with with questions and requests. **Virtual
Blended Learning
Throughout
the Summer**

GRADE 6-9 - ALEKS

#315040

Entering 6-9th graders- ALEKS (blended learning) In this math course, each student will be placed in an appropriate math curriculum through ALEKS. ALEKS is a web-based assessment and learning system that uses adaptive questioning to quickly and accurately determine exactly what a student knows and doesn't know. From that information, students study using a personalized learning path through ALEKS with the guidance of the Middle School Math Specialists and teachers. The purpose of this class is for students to build upon their math skills so they can be successful going into the following school year. The class will have a flexible schedule that will allow students to go at their own pace. Office hours will be available for an hour a week beginning in Session 1 and ending in Session 2 for students to ask questions or receive support. The rest of the time will be spent working on ALEKS outside of class. The teacher will be available via email to answer any questions or provide additional support. *Office Hour dates and times will be available in late May

Instructor: Sheila Jentsch, Math Teacher, Steffen & Lake Shore Middle Schools

Full Schedule #2

4K-5th grade: (Range Line Community Center)

In-person classes are in block format. When you register for a block you are registering for a 2.5-hour block of time with two classes (except for 4K Jumpstart Block program) depending on the content and grade level. Teachers will provide students a 10-minute outdoor break during that time to provide some movement, please dress students appropriately. All classes will be at Range Line Community Center.

6th-9th grade: (Lake Shore Middle School)

In-person classes are in a single-class format except for Calling All Scientists and Intro to Musical Theater, which are two-block classes. When you register for a class, you are registering for one class depending on the content and grade level. All classes for grades 6-9 will be at Lake Shore Middle School.

8-9 a.m.	Morning Playground Range Line Gym	#315070
9-11:30 a.m. AM ONLY Room: 100	4K Jumpstart <i>Block Class AM with 10-minute break included</i> The 4K summer program will provide your child with an opportunity to grow socially, emotionally, and academically by learning skills such as classroom etiquette, pre-literacy skills, and math concepts. Children will engage in large and small group hands-on activities designed with the young learner in mind! Instructor: Hailley Groth, Teacher, Donges Bay Elementary School	#315071
	Individual Aide for a Student We do offer para/aide support for Summer Academy, however, it is \$18 per hour which will be added to your course registration fee for the para assignment. Please email Beula Sundararajan at bsundararajan@mtsd.k12.wi.us with questions and requests. We will reach out to our district paraprofessionals and check their availability for summer and confirm with you if we can process your request.	#315101

8-9 a.m.	Morning Playground Range Line Gym	#315070
9 - 11:30 a.m. Room: 107	GRADE 5K - Life on a Farm AND Math FUNDamentals Block Class AM with 10-minute break included Life on a Farm: Farm animals are fascinating to children. "Life on the Farm" is a class designed to teach children that a farm is a piece of ground where crops and animals are raised. This class helps children learn about farm animals, farm equipment, and farmers. Math FUNDamentals: This course will offer students the ability to strengthen skills and gain extra practice in mathematics utilizing a workshop approach. This class will focus on building skills in numbers and operations, algebraic thinking, geometry, data, and measurement. Instructor: Christina Rauch, 5K teacher - Wilson Elementary School	#315072
9 - 11:30 a.m. Room: 108	GRADE 1 - Reading Workshop & Math FUNDamentals! Block Class AM with 10-minute break included Reading Workshop: In this course, students will strengthen their reading abilities as they engage in daily activities utilizing the priority standards of first grade. This class will encourage and support young readers as they further develop their foundational reading skills. Math FUNDamentals: In this course, students will preview the mathematical skills of first grade. They will complete hands-on activities utilizing manipulatives to increase their conceptual understanding of addition and subtraction strategies, geometric shapes, and measuring lengths. Students will practice critical and flexible thinking as they engage in everyday mathematical concepts. Instructor: Melissa Lee, Teacher - Donges Bay Elementary School	#315074
11:30 a.m.-12 p.m.	Lunch Free lunch supervision is offered for (Grades 5K-9 only) students who sign up for both AM and PM sessions. Students need to sign up for lunch sessions. Students will bring their own lunch from home.	#315100
12 - 2:30 p.m. Room: 107	GRADE 5K - Reading Workshop & Writer's Workshop Block Class PM with 10-minute break included Reading Workshop: This course is for students who are looking for an extended learning opportunity to strengthen their reading and writing through practice utilizing the priority standards identified for each grade level. This class will encourage and support young readers as they work on their literary abilities. Writer's Workshop: In this course, students will develop their writing skills to prepare for first grade. Students will gain experience in brainstorming, organizing their thoughts, and publishing their work to become an author. Instructor: Christina Rauch, 5K Teacher - Wilson Elementary School	#315073
12 - 2:30 p.m. Room: 108	GRADE 1 - Underwater Adventures & Written & Illustrated by YOU! Block Class PM with 10-minute break included Underwater Adventures: This engaging activity invites young learners to explore the depths of the ocean, count adorable sea creatures, and practice writing. Dive underwater and explore amazing underwater animals through crafts, games, songs, and activities. Written and Illustrated by YOU!: In this course, students will develop their writing skills to prepare for first grade. Students will gain experience in brainstorming, organizing their thoughts, and publishing their work to become an author. Instructor: Hailley Groth, Teacher - Donges Bay Elementary School	#315075

2:30 - 4:00 p.m.**Outdoor Games & Playground (K-1)****#315076**

Students will have the opportunity to play structured games facilitated by an adult and have free choice activity/play time.

Supervisor: Julie Hart, Recess Mentor, Wilson Elementary School

Individual Aide for a Student**#315101**

We do offer para/aide support for Summer Academy, however, it is \$18 per hour which will be added to your course registration fee for the para assignment. Please email Beula Sundararajan at bsundararajan@mtsd.k12.wi.us with questions and requests. We will reach out to our district paraprofessionals and check their availability for summer and confirm with you if we can process your request.

8-9 a.m.	Morning Playground Range Line Gym	#315070
9 - 11:30 a.m. Room: 110	GRADE 2-3 - Math FUNDamentals & Story Problem Solvers Block Class AM with 10-minute break included <p>Math FUNDamentals will offer students the ability to strengthen skills and gain extra practice in mathematics utilizing workshop approach. This class will focus on building skills in numbers and operations, algebraic thinking, geometry, data and measurement.</p> <p>Story Problem Solvers is for those students who want or need to strengthen their skills in solving story problems and explaining their thinking/reasonableness in math. This time will be spent working on solving different story structures problems through a variety of activities while helping students to visually and conceptually understand the operations being used. We will show how the math they learn throughout the year applies in a real life setting.</p> <p>Instructor: Sidney Sieczkowski, Teacher - Donges Bay Elementary School</p>	#315077
9 - 11:30 a.m. Room: 201	GRADE 2-3 - Learning to Code with Ozobots Block Class AM with 10-minute break included <p>Students will learn to program and interact with Ozobots. They will be introduced to two ways to code: On paper and on Chromebooks using Ozoblockly. We will explore solving real world problems and explore possible career choices that will require coding and programming in the future. Students will walk away with skills of thinking creatively, reasoning systematically, and working collaboratively.</p> <p>Instructor: JoAnn Hausknecht, RDL Specialist - Oriole Lane Elementary School</p>	#315078
9 - 11:30 a.m. Room: 109	GRADE 2-3 - Life as a Vet & Written and Illustrated by YOU! Block Class AM with 10-minute break included <p>Life as a Vet: Students will explore the job of a veterinarian. From pets to zoos to farms, all the animals need to be well taken care of. In this course, students will explore topics such as animal body language, a day in the life of zoo animals, animal hygiene and the role a veterinarian plays in all of those.</p> <p>Written and Illustrated by YOU!: Become be an author and illustrator! This class will offer students the ability to continue practice in writing. Students will gain experience in brainstorming, organizing their thoughts, and publishing their work that will enhance their ability to be an author for informational, opinion, and narrative writing.</p> <p>Instructor: Wendy Smith, Teacher, Donges Bay Elementary School</p>	#315080
11:30 a.m.-12 p.m.	Lunch <p>Free lunch supervision is offered for (Grades 5K-9 only) students who sign up for both AM and PM sessions. Students need to sign up for lunch sessions. Students will bring their own lunch from home.</p>	#315100

12 - 2:30 p.m.
Room: 110

GRADE 2-3 - Written and Illustrated by YOU! & Reading Workshop #315079
Block Class PM with 10-minute break included

Written and Illustrated by YOU!: Become be an author and illustrator! This class will offer students the ability to continue practice in writing. Students will gain experience in brainstorming, organizing their thoughts, and publishing their work that will enhance their ability to be an author for informational, opinion, and narrative writing.

Reading Workshop: This course is for students who are looking for an extended learning opportunity to strengthen their reading and writing through practice utilizing the priority standards identified for each grade level. This class will encourage and support young readers as they work on their literary abilities.

Instructor: Sidney Sieczkowski, Teacher - Donges Bay Elementary School

12 - 2:30 p.m.
Room: 109

GRADE 2-3 - I am a Scientist & Reading Workshop #315081
Block Class PM with 10-minute break included

I am a Scientist: Come have some fun with simple experiments that the students can do at home and school! Students will learn how to do the experiment during the teaching time, explain why it happens/works, and then during the work time, they can do the experiment and draw pictures to show what happened.

Reading Workshop: This course is for students who are looking for an extended learning opportunity to strengthen their reading and writing through practice utilizing the priority standards identified for each grade level. This class will encourage and support young readers as they work on their literary abilities.

Instructor: Wendy Smith, Teacher- Donges Bay Elementary School

2:30-4:00 p.m.

Outdoor Games & Playground (2-3) #315082

Students will have the opportunity to play structured games facilitated by an adult and have free choice activity/play time.

Supervisor: Hailley Groth, Teacher - Donges Bay Elementary School

Individual Aide for a Student #315101

We do offer para/aide support for Summer Academy, however, it is \$18 per hour which will be added to your course registration fee for the para assignment. Grades 6-9 in-person classes are in a single-class format (unless otherwise noted). When you register for a class you are registering for one class depending on the content and grade level.

8-9 a.m.	Morning Playground Lake Shore Middle School Gym.	#315070
9 - 10:10 a.m. Room: 110	GRADE 8-9 - Geometry Welcome to Summer Geometry! This hands-on math adventure designed for students who want to dive into the world of shapes, angles, transformations, and problem-solving. This class is designed to give students a solid understanding of key geometric concepts in a fun and engaging way. Whether you're looking to get ahead or reinforce your skills, this course will explore the essentials of geometry with real-world applications, games, creating geometric art, interactive activities, and creative problem-solving. Instructor: Sheila Jentsch, Math Teacher, Steffen & Lake Shore Middle Schools	#315089
9 - 10:10 a.m. Room: 112	GRADE 6-9 - Crafty Creativity! Students will have an opportunity to learn crafting skills that they might not have explored before. Everyday will be a new craft and skill to learn. Come join us for a fun time to get those creative juices flowing! Instructor: Heidi Kressin, Teacher - Lake Shore Middle School	#315095
9 - 11:30 a.m. Room: 114	GRADE 6-9 - Calling All Scientists & Rube Goldberg! Block Class AM with 10-minute break included Calling All Scientists: Whether you enjoy science or want to learn more, this is a class for all! Students will build on their group work skills as they conduct different science experiments. Students will learn more about density, the mixing of different liquids, and they'll even get to create their own lava lamp! Rube Goldberg: It's time to build! Students will be learning about the history of Rube Goldberg machines and will get the opportunity to build one of their own! Students will demonstrate their creativity, teamwork, and persistence skills as they work together to create an effective chain reaction. Instructor: Mason Burg, Math/Science Teacher- Steffen Middle School	#315091
10:20 - 11:30 a.m. Room: 110	GRADE 7-9 - Advanced Algebra Ready to take your algebra skills to the next level? Then you are ready for Advanced Algebra. This class dives deep into equations, functions, polynomials, and systems! You'll sharpen your problem-solving skills. Get ready for hands-on activities, challenges, and some friendly competition as we tackle some fun algebraic puzzles, games and Algebra escape rooms! Instructor: Sheila Jentsch, Math Teacher, Steffen & Lake Shore Middle Schools	#315090
10:20 - 11:30 a.m. Room: 112	GRADE 6-9 - Reading Workshop This course is for students who are looking for an extended learning opportunity to strengthen their reading and writing through practice utilizing the priority standards identified for each grade level. This class will encourage and support young readers as they work on their literary abilities. Instructor: Heidi Kressin, Teacher, Lake Shore Middle School	#315096
11:30 a.m.-12 p.m.	Lunch Free lunch supervision is offered for (Grades 5K-9 only) students who sign up for both AM and PM sessions. Students need to sign up for lunch sessions. Students will bring their own lunch from home.	#315100

Grades 6-9 in-person classes are in a single-class format (unless otherwise noted). When you register for a class you are registering for one class depending on the content and grade level.

12 - 2:30 p.m.
Room:
Choir Room

GRADE 6-9 - Intro to Musical Theater

#315092

Block Class PM with 10-minute break included

It's... a... musical! In this performance and project-based class, students will take a deep dive into the world of musical theater. Students will learn about the history and elements of musical theater, learn new songs and vocal techniques, and will even have the opportunity to create their own musical! The course will culminate in student performances and presentations of their musicals to showcase what they have learned. Any level of experience is welcome!

Instructor: Samantha Carlson, Choir Teacher - Lake Shore/Steffen Middle Schools

12 - 1:10 p.m.
Room: 110

GRADE 6-7 - Math in the Middle

#315093

Get ready for some fun, creativity, and, of course, math in the Math in the Middle Class. This isn't your ordinary math class—it's a math adventure where you'll explore challenges, solve puzzles, dive into real-world problems, create some math art, and play math games. From geometry and algebra to fractions and decimals, you'll gain skills that will help you be ready for your math class in the Fall.

Instructor: Sheila Jentsch, Math teacher- Steffen/Lake Shore

12 - 1:10 p.m.
Room: 114

GRADE 6-9 - Research and Writer's Workshop

#315097

Come let your creativity shine! This class will offer students the opportunity to practice and refine their creative writing skills at a middle school level. Students will focus on brainstorming, developing engaging plot elements, utilizing descriptive details, editing, and publishing their very own works. This class will allow students to explore their creative side while simultaneously building confidence and skills required for successful middle school writing in English Language Arts.

Instructor: Heidi Kressin, Teacher- Lake Shore Middle School

1:20 - 2:30 p.m.
Room: 110

GRADE 7-9 - Algebra

#315094

Jump into some Algebra fun! Where math isn't just numbers—it's solving mysteries in math escape rooms to creating math-inspired art. This class makes learning fun and interactive. You'll tackle everything from equations and graphing to quadratic formulas all while building a strong foundation in algebra. Whether you're looking to catch up, get ahead, or just want to have fun with math, this class will provide a fun way to explore Algebra.

Instructor: Sheila Jentsch, Math Teacher, Steffen & Lake Shore Middle Schools

1:20 - 2:30 p.m.
Room: 114

GRADE 6-7 - Getting Ready for Middle School

#315098

This course will provide incoming and current middle school students with the opportunity to build and refine the skills they need for success at the middle school level. They will work on organization, time management, study skills, and note-taking. Students will work on academic success through critical thinking and questioning skills. This course will highly benefit incoming 6th graders with middle school skills.

Instructor: Heidi Kressin, Teacher - Lake Shore Middle School

2:30-4:00 p.m.

Outdoor Games & Playground (6-9)

#315099

Students will have the opportunity to play structured games facilitated by an adult and have free choice activity/play time.

Supervisor: Julie Hart, Recess Mentor, Wilson Elementary School

Grades 6-9 in-person classes are in a single-class format (unless otherwise noted). When you register for a class you are registering for one class depending on the content and grade level.

**Blended
Learning
Throughout
the Summer
(Virtual)****Individual Aide for a Student****#315101**

We do offer para/aide support for Summer Academy, however, it is \$18 per hour which will be added to your course registration fee for the para assignment. Please email Beula Sundararajan at bsundararajan@mtsd.k12.wi.us with with questions and requests. We will reach out to our district paraprofessionals and check their availability for summer and confirm with you if we can process your request.

GRADE 6-9 - ALEKS**#315040**

Entering 6-9th graders- ALEKS (blended learning)

In this math course, each student will be placed in an appropriate math curriculum through ALEKS. ALEKS is a web-based assessment and learning system that uses adaptive questioning to quickly and accurately determine exactly what a student knows and doesn't know. From that

information, students study using a personalized learning path through ALEKS with the guidance of the Middle School Math Specialists and teachers. The purpose of this class is for students to build upon their math skills so they can be successful going into the following school year. The class will have a flexible schedule that will allow students to go at their own pace. Office hours will be available for an hour a week beginning in Session 1 and ending in Session 2 for students to ask questions or receive support. The rest of the time will be spent working on ALEKS outside of class. The teacher will be available via email to answer any questions or provide additional support. *Office Hour dates and times will be available in late May.

Instructor: Sheila Jentsch, Math Teacher, Steffen & Lake Shore Middle Schools
