

**My Tooth — anonymous**

My tooth fell out and left a space

*(pantomime tooth falling out)*

So big my tongue can touch my face

*(spread arms out wide)*

And every time I smile I show

*(make a big smile)*

The place where something used to grow.

*(point to “empty” space in mouth)*

I miss my tooth as you can guess

*(make a sad face)*

But now I have to brush one less!

*(smile and pretend to brush teeth)*
