

GUIDED CAREER PATHWAYS

**NORTHEAST IOWA
COMMUNITY COLLEGE**

WELCOME

to college credit courses through Northeast Iowa Community College!

Northeast Iowa Community College (NICC) courses generate high school credit toward your high school graduation requirements, while starting your official college transcript. We are excited to offer you clear career pathways through a specific sequence of courses. The College has course opportunities for you regardless of where you are on your career planning journey.

➤ **AWARENESS**

➤ **EXPLORATION**

➤ **EARLY ADMISSIONS**

➤ **GENERAL EDUCATION**

The College partners with 25 in-district high schools to offer college credit coursework to students to expand career opportunities and college readiness. Students can participate in college credit opportunities through concurrent enrollment and Placement in College Credit (PICC) courses.

CONCURRENT ENROLLMENT

NICC courses contracted by your high school. Courses are taught by a high school or College instructor, at your high school or an NICC location.

PICC

Courses scheduled by the College for students. High School students may enroll in individual course sections offered online or at an NICC Location.

Katie Gilbert

Dean of High School Partnerships

TRANSFER DEGREES.

LIBERAL ARTS.

Sixty percent of our full-time students graduate with one of our transfer degrees. Being strategic when making decisions about your education reduces the cost of earning a four-year degree. Our advisors work closely with you to make sure the college credits earned both in high school and at Northeast Iowa Community College transfer smoothly, saving you thousands of dollars.

ADVANCED MANUFACTURING

Awareness:

PICC or Concurrent courses to learn about a variety of jobs and careers in one interest area.

Exploration:

PICC or Concurrent courses to explore careers of interest and develop post high school plans.

Early Admission:

PICC or Concurrent courses that lead to a Career Pathway Certificate or degree.

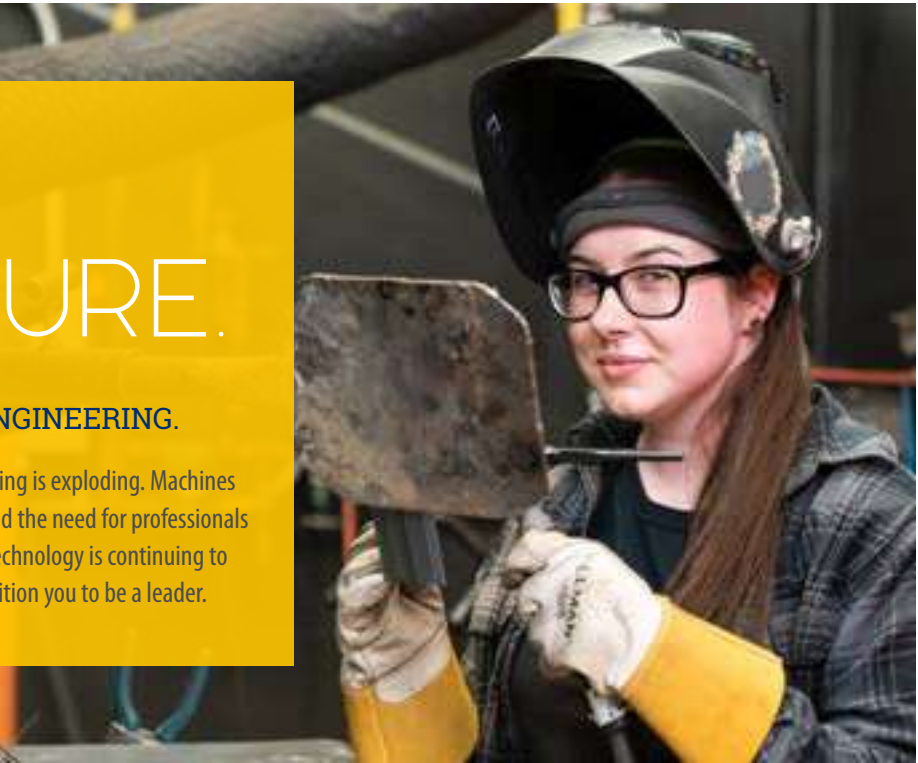

General Education:

Courses that all college students must complete to fulfill core degree requirements for graduation.

POWER THE FUTURE.

ADVANCED MANUFACTURING. ENGINEERING.

The future of advanced manufacturing and engineering is exploding. Machines are smarter, the demand for product is on the rise and the need for professionals like you to design, program, operate and maintain technology is continuing to grow. Our programs, taught by industry experts, position you to be a leader.

 Courses marked with a check mark satisfy a program degree requirement. Connect with your high school counselor and NICC Success Coach to learn what course options are available to you.

NORTHEAST IOWA CAREER LEARNING LINK

Northeast Iowa Career Learning Link (CLL) connects businesses and high schools by offering relevant, work-based learning activities for students and educators. The program is available to high school students beginning their sophomore year and guides participants through work-based learning experiences following the career continuum of awareness, exploration, and workplace preparation. Consideration of high-demand career pathways – healthcare, information technology, advanced manufacturing, business/finance and STEM (science, technology, engineering, math) – is highly encouraged.

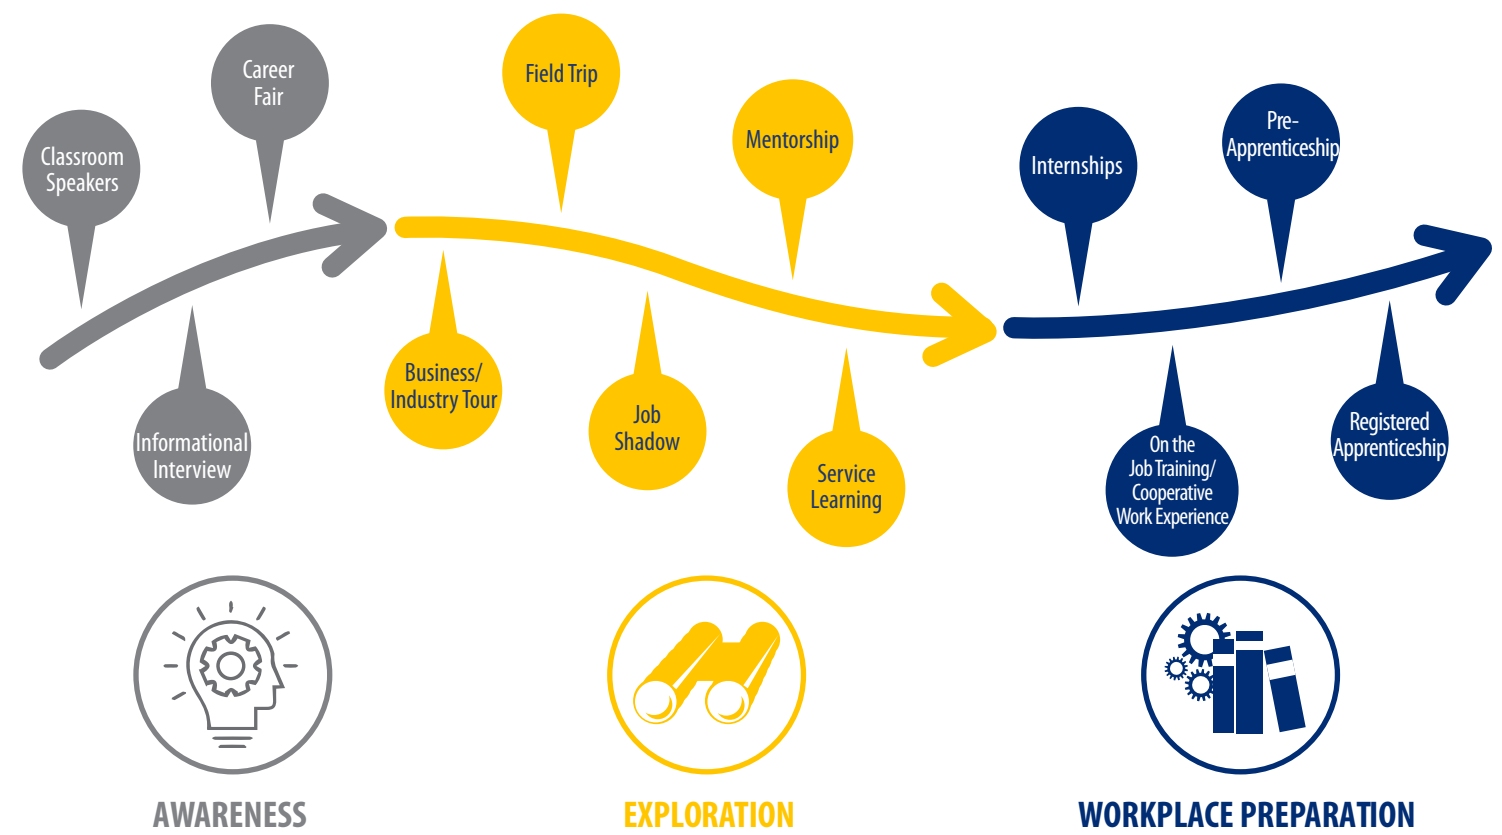

“Career Learning Link and Northeast Iowa Community College gave me opportunities to get more experience and to explore different career options. I wanted to find out what I wanted to do with my life. After I completed an internship at a hospital, I realized that healthcare was what I wanted to do as a career.” -- ANNA HUNT

BENEFITS

- Meet one-on-one with a success coach regarding future education and career plans
- Explore careers through exclusive work-based learning events and individual job shadows, optional mentoring and/or internships
- Build your leadership experience and resume through volunteering and other activities
