

I'm a Pathways Intern supporting NASA's Office of STEM Engagement at the Goddard Institute for Space Studies, in New York City. We are currently recruiting graduate students and high school STEM educators to join the [NASA GISS Climate Change Research Initiative \(CCRI\)](#) program and I was wondering if you would be so kind to share this notice with your network.

The NASA Climate Change Research Initiative (CCRI) is a year-long STEM engagement opportunity for educators and graduate students to work directly with NASA scientists and lead research teams in a NASA research project hosted at the NASA Goddard Institute for Space Studies in New York City, NY; NASA Goddard Space Flight Center in Greenbelt, MD; or NASA Langley Research Center in Hampton, VA.

The application deadline is **August 29, 2021**.

For detailed information about educator participation in CCRI 2021-2022, including descriptions of the opportunities, please see the [information and instructions document for educators](#) (PDF) and submit application documents using the [Fall 2021 CCRI Educator link](#).

For detailed information about graduate student participation in CCRI 2021-2022, including descriptions of the opportunities, please see the [information and instructions document for graduate students](#) (PDF) and submit application documents using the [Fall 2021 CCRI Graduate Student Research Assistants](#) link.

Thank you,
