

88%

of NASA's hires come from outside of the Federal Government.

66%

of NASA's new hires are hired as entry- or mid-level employees.

COME EXPLORE WITH US.

NASA is more than astronauts. We are scientists, engineers, IT specialists, human resources specialists, accountants, writers, technicians, and many other kinds of people working together to break barriers to achieve the seemingly impossible.

We have rewarding career opportunities for just about anyone excited by our mission. Whether you have worked in the military, corporate world, manufacturing, academia and research, or in a non-profit setting, we believe your skills are transferable, and you will find a challenging and rewarding career with us.

There's a place for you at NASA. Align your talents with your passion and find out why NASA is consistently named a best place to work in the Federal Government.

TOTAL HIRES BY FUNCTIONAL AREA (FY16-FY18)

WHERE COULD YOU FIT INTO OUR SPACE?

For more than 50 years, NASA has been breaking barriers to achieve the seemingly impossible—from walking on the Moon to pushing the boundaries of human space flight farther than ever before. Now we are going back to the Moon to stay and on to Mars.

Join our team of world-class experts in engineering, science, business, project management, and data science who share a passion for exploration and a drive for excellence. Together, we will work to rewrite our understanding of our planet and the universe.

TOP FIVE REASONS TO WORK AT NASA

1. Your work will have an impact.
2. You will work alongside world-class talent.
3. You will join an interconnected community.
4. You will never stop learning.
5. You can shape your own path.

NASA hires between 500 and 1,100 new employees every year from diverse fields and backgrounds..

YOU HAVE WHAT IT TAKES!

Our more than 18,000 professionals come from many diverse backgrounds but are united by a common purpose: to pioneer the future in space exploration, scientific discovery, and aeronautics research. Our NASA team embodies a few shared characteristics that are integral to our success.

- ✓ **Curiosity:** We are continually asking questions and seeking answers.
- ✓ **Team-oriented:** We come together as one to solve complex issues. Innovation is a staple, teamwork is a must, and everyone's opinion counts.
- ✓ **Excellence:** We are continuously striving to be better and to know more. We pursue excellence in both the ordinary and the extraordinary.
- ✓ **Passion for Exploration:** We are constantly embarking on a range of adventures to better understand our planet, the solar system, and beyond.
- ✓ **Agility:** We are comfortable working in ambiguous environments. We embrace change and are ready to adapt to what the future may bring.
- ✓ **Resilience:** When we put our minds to something—we don't give up.
