

Project Instructions
Communicable and Noncommunicable Diseases
8th Grade Health
Mrs. Paurus

Learning Goal: Students will create a puzzle poster that demonstrates their knowledge of specific communicable and noncommunicable diseases.

Directions:

1. Students will pick:
 - a. 1 communicable disease
 - b. 1 noncommunicable disease
2. Students will research their disease and have their information
 - a. BY MONDAY OCT. 10
 - b. On the puzzle piece note taking page.
3. Students will create a puzzle poster with their information they researched.
4. Students need to have 2 pictures on their poster that are related to their disease
 - a. 1 of the pathogen
 - b. other of your choice
5. Information must be in the same order as your research sheet.

Example of the end product.
