

7th Grade/New Student - Tablet Information

The Lake Preston School District hands out tablets to the 7-12th grade students to be used for educational purposes. Along with the machine your son/daughter will also be receiving a state email that the teachers use with the students for assignments. As parents you will need to read through the Student Acceptable Use Policy with your child and that will need to be completed and processed before the tablets will be allowed to leave the building.

The machines will be handed out during the Open House on August 15th and staff will be going over student expectations in the classrooms the first couple days of classes.

If you have any questions or concerns please contact Kristi Odegard at kristi.odegaard@k12.sd.us or call the school at 847-4455.
