A Fun Day with Mom

We're having a girl's day! First, Mom and I get to go thrift shopping at the mall. We are looking for scraps of fabric for a craft we have planned. I squint at the patterns and look for the right one. Mom got a new strap for her bag. After shopping, we went for lunch. Mom and I split a shrimp dish. We went home to finish our craft. I found a strand of string to use. Mom didn't help me fix it. She cooked dinner. After dinner, I took a bath. I like to splash in the bathtub. Last, mom read me a bedtime story about a strong giant who liked to splish-splash in puddles.

1. Who does the main character spend the day with?

2. What do they do first?

3. What did they eat for lunch?

4. What is the last thing they do on this fun day?
