- **ESL-** Cindy Lockerman has been fortunate enough to get from the ESL dept. a grant that includes 10 iPads with a charging tray, an Apple TV device, 10 Cyber Acoustics mic/headphones and a MacBook. The most exciting part of the grant is the intensive professional development that goes along with the technology equipment. She has already had an all day session and a visit from her mentor to get started. It is all very exciting, and such a wonderful opportunity for our newcomer students to learn all about using technology. *The volunteer tutors are all now assigned and well on their way to falling in love with our students, just as we are! As of today, we have 18 active tutors. We are getting great reports from all of them. It has been extremely fulfilling for them, as well as meeting a great need for our students.*
- **TD/Magnet-**
- **Special Area-** art- abstract and nonobjective projects. Music – December 15th program for second graders, fourth grade will begin recorder. Media- digital citizenship with all students to earn certification, battle of the books group starting through electives. PE- SPARK dance unit to
