

Name: _____ Date: _____

- 1 Which of the following aspect of naval communications is most important?
 - A Security
 - B Reliability
 - C Speed
 - D They are all equally important.
- 2 Telecommunications includes which of the following? (Input all that apply, then push the ENTER button.)
 - A Authoring
 - B Routing
 - C Reproducing
 - D Destroying
 - E Encrypting
- 3 A ship needs to send a message communicating they need help. How would this be done using the phonetic alphabet?
 - A how-easy-love-peter
 - B hotel-echo-little-paper
 - C highway-enemy-lemon-papa
 - D hotel-echo-lima-papa
- 4 A list of words used to identify letters in a message transmitted by radio or telephone
 - A Digital Data
 - B Phonetic alphabet
 - C Morse code
 - D Cryptic dialect
- 5 Radio networks that transmit digital data among surveillance or weapons control system computers
 - A Digital Frequency
 - B Morse Code
 - C Tactical data link
- 6 A system in which characters are represented by various combinations of dots and dashes
 - A International Morse code
 - B Tactical data link
 - C Cipher
 - D Phonetic alphabet

- 7 Which of the listed important aspects of naval communications is considered to be the most important?
 - A Encrypted
 - B Secure
 - C Electronic
 - D Reliable
 - E Rapid
- 8 What is the name for the radio networks that broadcast tactical data among surveillance and weapons control system computers on ships, ground stations and aircraft?
 - A RATT
 - B Nancy
 - C TADILs
 - D FAX
 - E Gertrude
- 9 What agency manages the Navy's satellite communications program?
 - A The Department of Naval Research.
 - B The Naval Satellite Command and Control Program.
 - C The National Aeronautical and Space Administration (NASA).
 - D The Nautical Communications Command.
 - E The Naval Space Systems Command.
- 10 What is the phonetic alphabet word for the letter "N"?
 - A November
 - B Nancy
 - C Night
 - D Numbskull
 - E Northern
- 11 What is the phonetic alphabet word for the letter "U"?
 - A Unicorn
 - B Uganda
 - C Uniform
 - D Uncle
 - E Unit

- 12 What is the phonetic alphabet word for the letter "T"?
 - A Thomas
 - B Tennessee
 - C Tango
 - D Tare
 - E Turkey
- 13 What is the phonetic alphabet word for the letter "B"?
 - A Beta
 - B Baker
 - C Boat
 - D Barnacle
 - E Bravo
- 14 In Morse Code the length of a dash is how many dot lengths?
 - A five
 - B four
 - C three
 - D two
- 15 Over the Horizon (OTH) communications are:
 - A done using low frequencies and satellite links
 - B done with mirrors
 - C not possible
 - D never used for security reasons
- 16 Line-of-sight radio transmissions means
 - A transmissions can only be received during daylight hours
 - B transmissions can only be made during daylight hours
 - C radio waves travel in a straight line and do not follow the curvature of the earth
 - D you can see the radio waves
- 17 Underwater sound communications associated with Sonar is called:
 - A Sally
 - B Nancy
 - C Hortense
 - D Gertrude

- 18 Visual communications include all but which of the following?
- A flashing light
 - B flaghoist
 - C hand/finger gestures
 - D semaphore
- 19 Advantages of visual communications include all EXCEPT which of the following?
- A Silent and economical
 - B Versatile
 - C Reliable
 - D Universally understood
- 20 Most shipboard tactical radiotelephone (voice radio) equipment is _____.
- A infrequently used due to excessive cost.
 - B line-of-sight so the waves do not follow the curvature of the earth
 - C seldom used because is not as secure as other methods
 - D low frequency over-the-horizon radio or communications satellite links

Answer Key: NS3-M1U2C2 - Naval Communications (Exam)

Question:	Answer
1	A
2	BCE
3	D
4	B
5	C
6	A
7	D
8	C
9	E
10	A
11	C
12	C
13	E
14	C
15	A
16	C
17	D
18	C
19	D
20	B
