- 1 According to recent research what will the result be if the instructor tries to incorporate both sides of the learner's brain?
  - A The learning plateau will be increased.
  - B Rate of learning will decrease.
  - C Rate of learning will increase.
  - D The learning plateau will be eliminated.
- 2 Initial learning may come quickly until a plateau is hit and the rate of learning decreases. This is especially true of which classification of learning?
  - A Motor
  - B Conceptual
  - C Perceptual
- 3 Lectures often times have a negative connotation, but when are they most efficient?
  - A When the students are knowledgeable about the subject matter.
  - B When presenting many facts or ideas in a short period of time.
  - C When a discussion will be involved.
- 4 The instructor wants to present a lesson in which the students would work together to design a new type of ship. Instead of a lecture, what method of instruction could she use?
  - A Lecture with audiovisual aids
  - B Cooperative learning
  - C Role playing
- 5 A period of little or no apparent progress in an individual's learning, reduce number of errors, etc., and indicated by a horizontal stretch in a learning curve or graph
  - A Progressive Stall
  - B Progression Plateau
  - C Learning Plateau
- 6 Use of words that mean the opposite of what you really want to say to insult someone, show irritation, or to be funny
  - A Criticism
  - B Flattery
  - C Banter
  - D Sarcasm

- 7 When deciding on instruction technique, what should be taken into consideration about the learners? (Input all that apply, then push the ENTER button.)
- A number
  - B previous experience
  - C maturity level
  - D ability
  - E None of the above
- 8 Before a lecture is even delivered the instructor should prepare by doing what? (Input all that apply, then push the ENTER button.)
- A Recording the lecture to play back during class.
  - B Tailoring the lecture to the students.
  - C Writing out a detailed script.
  - D Gathering the necessary information.
- 9 In which teaching method do students receive a report they must analyze?
- A Case study
  - B Discussion
  - C Cooperative Learning
  - D Role Playing
- 10 A published report about a person, group, or situation that has been studied over time; also a situation in real life that can be looked at or studied to learn about something
- A Biography
  - B Case Study
  - C Life story
- 11 Which of the following statements about the learning process is TRUE?
- A Research has shown that learning takes place on only one side of the brain.
  - B The learning process may include many types of learning, all taking place at once.
  - C Learning is always a group process.
  - D All of the above are true.
  - E None of the above are true.

- 12 What is probably the best instructional method if there is a single instructor and a large amount of students?
- A Role Playing
  - B Lecture
  - C Case Study
  - D Demonstration
- 13 What is the biggest disadvantage to the lecture method of instruction?
- A It can easily lead to student boredom if lengthy or too frequently used.
  - B It only is effective if students have done extensive research prior to the lecture.
  - C It isn't a useful technique to summarize or emphasize material from other sources.
  - D It can take a lot of time to get information across this way.
- 14 Which technique of instruction, if not properly set-up, can lead to imitation without understanding?
- A Discussion
  - B Demonstration
  - C Role Playing
  - D Lecture
- 15 When do people learn best?
- A When they have a strong purpose
  - B When they have a well-defined reason
  - C When they have a clear objective
  - D All of the above
  - E None of the above
- 16 What is the drive or desire to do a particular thing and the force that causes a person to move toward a goal?
- A Motivation
  - B Rationale
  - C Purpose

- 17 Which of the following should a lesson plan for a lecture include?
  - A Outline of the material to be presented
  - B Description of the intended audience
  - C Objective or outcome of the lesson
  - D All of the above

- 18 What are some of the disadvantages of the lecture with audiovisual aids technique for delivery of instruction?
  - A It is not good for development of motor skills.
  - B It assumes adequate note-taking skills on the part of the students.
  - C It assumes active listening on the part of the students.
  - D All of the above
  - E None of the above
- 19 When is the use of the role-playing type of instruction appropriate?
  - A When presenting many facts or ideas in a relatively short time
  - B During problem-solving situations where different roles are in opposition to each other
  - C When the goal is to get at attitudinal development
  - D When helping students understand perspectives and different ethnic and cultural backgrounds
  - E A and C
- 20 Under what conditions can cooperative learning strategies be employed?
  - A When the material to be learned requires both mastery and retention in long-term memory
  - B When sufficient time is available for the group to gather, discuss, digest, and disseminate information
  - C When the material to be learned is especially complex or important
  - D All of the above
  - E None of the above

Answer Key: NS3-M2U1C4 - How to Give Instruction (Exam)

Question:	Answer
1	C
2	A
3	B
4	B
5	C
6	D
7	ABCD
8	BD
9	A
10	B
11	B
12	B
13	A
14	B
15	D
16	A
17	D
18	D
19	E
20	D
