

# What inferences can we make from this picture?

[illegible]

# Here are some of the things we were able to infer from just a snapshot

## ► Time Frame:

- Tracks could not have been that old

## ► Event:

- Maybe the reflector fell off during a crash
- Maybe it rained recently

## ► What was there:

- Bike, Person, Animal

## ► Size of the animal:

- Animal droppings were most likely not from a very large animal
