WHAT WE'RE LEARNING

This month, Kindergarten worked on making predictions and recognizing different ways illustrations are made. First grade also learned about predicting and identifying story elements. Second grade continued to learn about our e-book library, Sora, and mapping out story elements. Third grade has been tasting new books and working on locating materials independently in the library through a fun scavenger hunt! Finally, fourth grade has been researching animals in order to make a nonfiction book in the persuasive style of "Give Bees a Chance".
