

$$p\left(\frac{2v}{t} + v \cdot 6\right) = -pf$$

$$1 + f = p \quad t - 3 = v$$

Flowers for
Algernon...

CHARACTERIZATION: Charlie is motivated and positive. He wants to increase his intelligence. He shows his motivation by attending night school.

"you shouldn't feel bad Charlie if you find out everyone isn't as nice as you think they are."

"I want to be smart!"

friendship

isolation
science

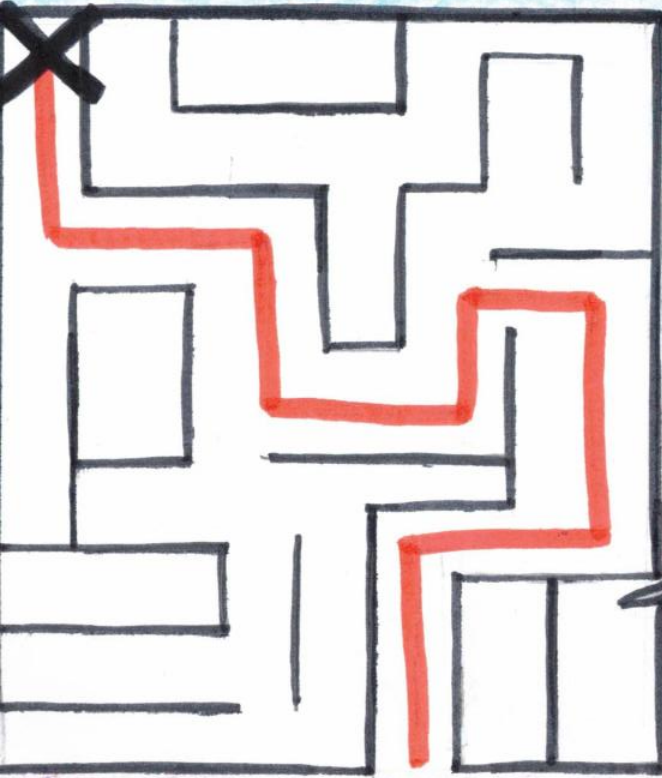

THEME: Lack of knowledge or awareness amounts to a happier life. Charlie becomes even more lonely and isolated after he has the operation. He is too smart to connect with Miss Kinnian and he discovers his "friends" from work are mocking him.

intelligence

a-mazed

charlie Gordon, you got guts."
