What did you like best about OSOB? What do you want to make sure we do again?

The story was really engaging throughout all grade levels. The tickets were a fun idea!

The school community it developed!

I loved it all. It was a great experience all around. My class loved it.

I enjoyed the read alouds by people the kids recognized.

The questions and the stem opportunities

Adult readers

I liked the high interest it created.

Easy topic each AM and everyone had access and the pre-recorded chapters!

The daily questions, guest readers, raffle, art contest, books for everyone!

they got to keep the book. Giving books to families is great!

Just do it again!!! I loved it!

I like having a book we are all reading as a school. It really builds that community feeling.

Guest readers

I loved the videos, I loved that older siblings talked to younger siblings about the book.

can read, and that many aren't being read to at home. I'll be a reader again 😊!

available to read to them (especially when families didn't), some wanted to read the series, or other books by
