The Online Art Teachers (K-12) Google Drive folder is a resource created to supplement ideas, lesson plans, and resources shared on the Online Art Teachers (K-12) Facebook page. The Google Drive folder has five subfolders that participants can access through view only and use the content

for their purposes. The sixth folder is a drop folder where participants can upload ideas, lesson plans, and resources. The Online Art Teachers (K-12) administrators will move the content from this folder into the other five folders accessible to participants.
