PowerSchool Access

PowerSchool is McGuffey School District's student information system. This web application allows parents and students to access important information regarding an individual student's progress through a parent and student portal. Each parent and student can access information with a secure login. For more information about how to access the parent and student portals visit the McGuffey School District website at www.mcguffey.k12.pa.us and click on the Parent or Student tab.

Over 85% of high students and parents tracked academic performance and attendance during the 2016 -2017 school year with the Powerschool App.

Culminating Graduation Project (CGP)

As part of its Strategic Plan, the McGuffey School District has adopted the High School Culminating Graduation Project (CGP) as a formal requirement for high school graduation. The purpose of the project is to provide a comprehensive program that will educate the whole person and prepare him/her to lead a productive life as a member of society. All students will complete a CGP in an area of concentrated study that focuses on career planning and exploration.

The CGP will illustrate how the various disciplines are interrelated and will show that a student can develop, organize, produce, analyze, and evaluate information. Each student will be responsible for presenting their CGP according to the prescribed requirements during their Junior or Senior on a date designated by the district.

Please refer to the Culminating Graduation Project (CGP) information under the Guidance link on our website for more information on the completion of this project.
