MY FINANCIAL AID OPTIONS

Since most adults change career paths multiple times during their working years, it is important to understand what financial resources are available for when/if you choose to pursue further education and/or training through an apprenticeship or a 2- or 4-year college or technical/specialty college.

This section of your HSBP is required to ensure all students know what support is available and how to access state and federal financial assistance after high school.

I will find out my financial aid options through either the Free Application for Federal Student Aid (FAFSA) or the Washington Application for Student Financial Aid (WASFA).

- Go to <https://wsac.wa.gov/apply> to access the different materials and information you and your parent(s)/guardian(s)/family need to apply for these sources of financial aid.
- I will be considered a dependent student for financial aid. Yes No
(Check for dependency status at <https://studentaid.gov/apply-for-aid/fafsa/filling-out/dependency>).

By (digitally) signing below, I indicate that I know which application I can use (FAFSA or WASFA) and how to find out what information and materials are needed to complete the application.

Some "Why's" for Financial Aid Requirements

Washington applications for college financial aid are lowest in five years

Students still have months to complete financial aid forms, but as of now, completion rates have declined from past years.

* Completion rates are compared across May for all respective years

Washington English learners and special education students lag behind peers in completing federal financial aid forms

In the 2019-20 school year, migrant students and those who are unhoused or from low-income homes also lagged behind the state's average.

12TH YEAR CAMPAIGN

Financial Aid Advising Day

12th Year Campaign

The 12th Year Campaign boosts college and financial aid application rates in Washington by helping those working with high school seniors and their families complete applications for college admissions and financial aid. This page contains information and resources designed to help schools and partners host a successful financial aid advising day. Explore the different sections below to learn more.

Supporting Washington's Financial Aid Advising Day

Financial aid matters. Nationally, seniors who complete a financial aid application are 84 percent more likely to enroll in postsecondary education. The rate is **even higher for students from lower-income families**. From an apprenticeship program to a two-or-four-year college degree, education beyond high school prepares students for jobs that move them beyond minimum wage. Even a one-year credential program at a community or technical college can increase future earnings.

Districts across Washington have an exciting opportunity to provide students with new support by sharing critical information for planning life after high school. Financial aid advising day, created with the passage of **ESSB 6141** in the 2020 Legislative session, is an opportunity to focus on educational equity related to students pursuing postsecondary education.

Financial Aid Calculator

Financial Aid Calculator

Many undergraduate students can cover some or all their college costs with the **Washington College Grant (WCG)** and **Federal Pell Grant (Pell)**.

To get an estimate, you'll need to enter information about your family size and income. You can optionally enter the estimated family contribution (EFC) from a current, completed FAFSA or WASFA to estimate awards.

WSAC does not collect any data you enter.

Estimate your award →

This tool calculates potential awards from the Washington College Grant and Pell Grant programs. There may be more aid available to you from other state and federal programs, from [private scholarships](#), or directly from the college you attend. The only way to know for sure how much financial aid you can receive is to [complete a FAFSA or WASFA financial aid application](#). For more information, contact the college's financial aid office.

- You will need family size and income

Next Steps

Convene your team

- Who needs to be at the table for this work? Can you partner with other schools/organizations?

Make a plan

- Decide how you will inform your students & their families of their financial aid opportunities. Determine how you will provide a financial aid advising event.

Continue the conversation

- Make a plan to support students throughout the financial aid cycle.
