

January Report

Vicki Smallwood - Jan 2, 2010 12:48 AM

Questions:

1. What technology integration and collaborative activities did you complete with your teachers?

I shared the Promethean Planet website. I helped teachers to make groups for their email.

2. What technology integration activities did you complete with your students?

Technology integration mostly included the Kindergarteners using JumpstartK. They are learning to click the mouse and perform the click and drag function.

3. What technology professional development do you have planned (during the summer) or have completed?

I attended the Tech summer conference and Lexile training in July. I am taking a course through WVLeads to get 45 hours of TIS credit. I am scheduled for Thinkfinity training in October.

4. What were the most helpful/informative things you did this month? What made the biggest impact? The most helpful thing I did was to meet our new county TIS. I am looking forward to working with her.

Goals:

Short Term: to attend Thinkfinity training in Charleston with Mark Moore. To finish the online PBL class.

Long Term: To keep up with the TIS class

Goal Accomplishments: Working on this class

I need to follow-up on... Some loose ends from summer TIS training

February Report

Vicki Smallwood - Feb 28, 2010 10:31 PM

Questions:

1. What technology integration and collaborative activities did you complete with your teachers? Using Thinkfinity and PowerPoint as teaching collaboration
2. What technology integration activities did you complete with your students? Research using wvinfodepot, bookadventure(at teacher's request), Thinkfinity
3. What technology professional development do you have planned (during the summer) or have completed? I attended whiteboard training- even though I do not have mine yet. I attended 2 webinars. I probably won't conduct any trainings.
4. What were the most helpful/informative things you did this month? What made the biggest impact? I actually have a digital imaging plan!

Goals:

Short Term: To help a 4th grade class use wvinfodepot and thinkfinity to research the revolutionary war and create a powerpoint presentation

Long Term: To get started with 4th grade collaboration- begin imaging project

Goal Accomplishments: 3rd grade finished PBL.

I need to follow-up on... more collaboration

Report for March Vicki Smallwood -

March 2010

Copy/paste the following questions and goals. Click the + symbol next to Comments. Paste (the copied questions and goals) into the comment box and click Add comment to post below. Please be thorough and detailed in your responses as this must serve as our assessment of cohort success! :)
