** Students needing to take a Make-Up Exam will report to the Cafeteria @ 7:15am on June 8th				

EOC/NCFE Testing Reminder

June 4th-7th (8th Makeup), your child will be taking End of Course and North Carolina Final Exams which count as **20% of their final grade**. Tests may not be made up after these dates. There will be no early dismissals before 12:30pm.

Please make every effort to have your child at school on time on days that this test is being administered, so that we may begin testing promptly in the morning. Your child will need to bring two No. 2 pencils to school. **State tests may not be rescheduled by the school.** **Students with medical or documented accredited educational conflicts must apply through Mrs. Beyer prior to May 1st in order to file with the state.**

Calculators are provided as appropriate for math exams. Students who would like to use approved calculators on science exams may bring standard or graphing calculators. Calculators with computer processors and phones are not permitted as a calculator on exams.

We will have Test Administrators and Proctors in every EOC room. We are making every effort to place a Proctor in every NC exam room as well. However, if we do not have enough volunteers, certified teachers will administer exams for each other to ensure maximum security of exams and equal testing opportunity for every student.

Cell phones are not permitted during testing and students are encouraged not to bring them to school on exam days since they will be collected. Myers Park is not responsible for lost or damages cellular devices.

If you have any questions, please go to the Testing Tab on the Myers Park Webpage or contact michellee.thereault@cms.k12.nc.us.

Thank you for your support!
