

Technology Support Night for Olentangy Parents and Guardians

MARK YOUR CALENDARS!

We are excited to host a parent technology support night dedicated to helping you learn more about how Olentangy leverages technology in classrooms and how these tools can be effectively managed and used at home to support learning and digital responsibility. Come join us to build a better understanding of what technology is used in Olentangy, and how parents and guardians can better support their child at home.

This event is not a “showcase,” but instead an opportunity for families to learn practical information that can help them and their child at school and home. Topics include:

- PowerSchool
- Schoology
- Digital Safety
- Digital Resources

*Presented by Olentangy Schools Instructional Technology and
Building Technology Chairs*
