

Pitt County Schools Bid Number 228-200427  
Addendum A to Original Bid

The information below is offered as a clarification regarding the original RFP for bid number 228-200427, an RFP issued for program evaluation services for Pitt County Schools' TIF and TCM grants. It is specific to page 19, item 1.d. under the section entitled section "Proposal Submission".

While we are requesting that the work for the evaluation not involve the work of sub-contractors (page 19), the evaluation may be completed by companies working collaboratively together as partners as long as the following conditions are met:

1. One partner is identified as the sole point of contact between the district and the evaluation team, including payment for services;
2. The division of responsibilities for the major components of the evaluative work are identified in the proposal by party;
3. A brief explanation for why a collaborative, partnership approach would be more beneficial to the District and the evaluation than if the evaluation were performed solely by one of the parties.
