

Mr. DuBois
Entrepreneurship/Personal Finance
Blizzard Bag Assignments

Day #6:

Research the pros and cons of budgeting and type a one-page paper using your research results. Include common expenses that one faces when preparing a budget, as well. Name and Block typed at the top. DS paper with 1-inch margins and 12-point font. Be sure to document websites used.

Day #7:

Research 3 different local bank websites and type a one-page paper using your results. Compare and contrast at least 2 different checking account options and 2 different savings account options per bank. List the pros and cons of the services that each bank offers. Make a recommendation as to which bank is best for your needs. Name and Block typed at the top. DS paper with 1-inch margins and 12-point font. Be sure to document websites used.

Day #8:

Choose a company listed on the NYSE to research. Go to www.nyse.com to help find a listed company. Follow the company in 3-minute intervals for 30 minutes. Make a chart listing the time and the current stock price for that company at that point (should have 10 prices when done ☺).

Type a one-page paper listing your findings. Include in this paper: brief company history; company category (according to NYSE); 2-3 major competitors; dividend rate; 52-week Hi and Low; and how much money your stock made/lost during the time monitored.

Name and Block typed at the top. DS paper with 1-inch margins and 12-point font. Be sure to document websites used.
