

Photo problems

...

Problem: Photos have
ugly yellow cast when
you take them in indoor
light:

Problem: Photos have
lots of speckles (noise)

Problem: the wrong
part of the photo is in
focus

Problem: Photos have
really white blown out
areas

takuminasuno.com

Problem: I just can't
seem to get shallow
depth of field

Problem: It's a low light situation and my photos are too dark or are blurry
