11 Very Different Types of Photography That Each Illuminate Our World

<https://mymodernmet.com/types-of-photography/>

Basic Photography Tips:

1. Make sure your lens is clean.

2. Focus on one interesting subject.

3. Get closer (avoid zooming in)

4. Make sure your device is focused clearly on your subject.

5. Check the background (will your subject stand out from the background?)

6. Try using the Rule of Thirds <https://digital-photography-school.com/rule-of-thirds/>

7. Check your composition (does everything in the photo belong in the photo?)

8. Make sure you have good lighting.

9. Play with angles (how will your subject look from different perspectives?)

10. Look for interesting patterns, textures, and colors.

11. Try using leading lines (lines that guide the viewer's eye through the photo)

12. Try using a photo editor (most phones have these built in to the camera)

Slow down and take your time.

A few tips expanded....

#9 Play with angles.

#10 Interesting patterns, textures, colors

#11 Leading lines

#12 Using a photo editor

A very famous photographer....

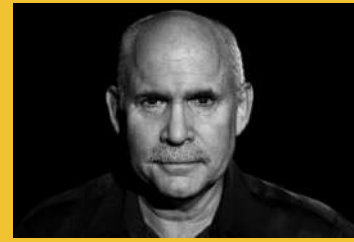

Ansel Adams (1902-1984) was an american photographer who became famous for his highly detailed black and white photographs of the american wilderness. He was also an outspoken leader for environmental conservation.

Hear from the artist himself: <https://youtu.be/gT-G42cskH4?t=59>

A current photographer....

Steve McCurry (born 1950) is a contemporary American photographer whose richly colored photographs have been published on the covers of books and magazines, including National Geographic.

1. *Journal of the American Medical Association*, 2000; 284: 2689-2695.

Don't forget to title your photos/documents with your name & grade. Share to: lisa.cherivtch@seaford.k12.de.us
