**960 Bushkill Center Road, Nazareth, PA**

**Proceeds benefit the Nazareth Area Science Project and its efforts to fulfill its mission**

Hosted by The Nazareth Area Science Project (NASP), which is a group of educators, administrators, parents, and community members who are interested in promoting excellence in science education within the Nazareth Area School District. Our mission is to foster excellence in science education and to convey the excitement of science to young people. We provide numerous events throughout the year in support of this mission, in addition to several fundraisers. Our fundraisers help the group secure funds to continue to maintain the environmental center at Butz Elementary, provide scholarships to Nazareth students interested in science, and provide science education activities for our students and the community.
