

Physical Science

Tecumseh High School

Room 116

Mrs. Rhonda Fox

Course Objective: Provide a fundamental understanding of the composition and properties of interacting matter (chemistry) and the principles of motion and energy (physics) while developing skills for scientific reasoning and organization.

Course Materials:

The following materials are required in class every day:

1. Textbook
2. Class Notebook:
 - a. 3-ring binder at least 1 ½ inch
 - b. 3 section dividers: COURSE, NOTES, and ASSIGNMENTS
3. Pen (blue or black ink) AND PENCIL with eraser
4. Agenda book
5. Simple calculator (no cell phones; programmable calculators not permitted on tests)
6. Loose-leaf graph paper, or graph paper and loose-leaf lined paper
7. Permanently-bound composition book (lab journal, may be stored in class)

Improvement:

Identify one classroom skill, subject, or procedure that you feel was a strong point during your last semester of science:

Identify one classroom skill, subject, or procedure that you would benefit from improving during the upcoming semester:

Late Assignments and Absences:

Policies for make-up work are established by Tecumseh High School. Any late assignments will be deducted 25% for the first day, 50% for the second day, and will be accepted at teacher discretion after that.

Contacting the Teacher:

All reasonable questions and concerns will be addressed in a timely manner. Students and their parents and guardians are encouraged to contact the teacher/instructor regarding progress in the course or other classroom issues immediately. A conference or help session may be scheduled at a mutually agreeable time at any point during the school year.
