

Play Dough Activity-Body Directions and Planes

- 1. Choose your color of play dough can and plastic knife from the front table.
- 3. You have 5 minutes to create a stick-like figure, with a HEAD, TRUNK, ARMS, and LEGS using the play dough.
- 4. As the terms are discussed, you will place a toothpick into the designated area.
- 5. After all the directional terms are discussed, we will then cut the figure into the planes as they are called out.
- 6. Return play dough back to can and bring back to side bench along with the plastic knife.
