

Post Observation Reflection

What went well during the lesson I observed?

What would you do differently the next time you teach this lesson and/or use a particular instructional strategy?

How would you describe the learning climate of the classroom during the lesson?

What occurred during the day before I arrived for the observation that may have influenced what happened during the time I spent in your class?

How did you address students who needed more time to fully understand and master the concept?

I observed a “snapshot” of your instruction. How well did the students’ learning reflect your intended learning outcomes?

What informal or formal assessments did you conduct prior to teaching this lesson? How did the data from the assessments influence this lesson?

How did you let students know what the objective for the lesson was and how the students would know if they successfully achieved it?

What student characteristics or needs do you keep in mind as you are giving directions?

What goal(s) did you set this year for student achievement? How are your students progressing on that/those goal(s)?
