

High School Science/Math Teacher at Monument School #8

MONUMENT SCHOOL IS DEDICATED TO THE PERSONAL AND ACADEMIC DEVELOPMENT OF EACH STUDENT TO HIS/HER POTENTIAL.

About Us: The school district is a K-12 system with separate elementary and secondary buildings, a large gymnasium, and the Ron Gaither Science Center. Monument has one of the best student to teacher ratios in the State, serving approximately 60 students K-12.

Monument School District's education system, while maintaining flexibility in adapting to an ever-changing society, is dedicated to the personal development of each student to his/her potential through a sequentially-coordinated curriculum that allows for individual differences, rigorous standards and opportunity to succeed. As students develop abilities, they are expected to acquire proficiency in the skill subjects, attain efficient and satisfying work habits, grow physically strong, acquire wholesome interests, responsibly direct their lives, develop desirable social attitudes, assume citizenship responsibilities, learn their heritage and their place in a global society and cultivate intellectual interests.

Our close-knit community, rural lifestyle and commitment to our students makes Monument an exceptional place to live, work and raise a family. Monument offers a wide variety of outdoor activities, breathtaking scenery and an area rich in history. Located in the Blue Mountains, the landscape encompasses high desert grasslands, beautiful valleys, forests of Ponderosa Pine and alpine lakes and meadows. The school sits on the banks of the North Fork of the John Day River, providing immediate access to fishing and rafting, as well as hunting and hiking opportunities around one of the longest free-flowing rivers in the contiguous United States.

Desired Qualities and Characteristics: Monument School District is seeking an educator who:

- Understands the challenges and opportunities of educating students in frontier Oregon.
- Demands instructional excellence and successful achievement of students, and encourages life-long learning.
- Carries or is able to gain appropriate license/endorsements to teach high school math and science
- Maintains excellent communication with other staff, families, and community.

Compensation: Based on salary schedule of collective bargaining unit

Timeline: Open until filled
